GROWLINK NUTRIENT DOSING SYSTEM

+

UNDER CURRENT® SYSTEMS

Remotely Monitor & Control System pH and EC/PPM

A stress-free solution for automated dosing and system monitoring. As your plants feed, pH buffers and nutrients are automatically adjusted to the desired range.

- Real-Time Data & Control via Growlink App
- 24/7 Monitoring with Text & Email Alerts
- Remote Tech Support
- Pre-Program Feeding Schedules
- Data Logging with Graphing
- Supports up to 16 Remote Dosing Pumps
- High & Low Tank Level Monitoring
- Dissolved Oxygen Monitoring
- Flow Meter Monitoring *Optional

Nutrient Dosing System - PRO

Monitor & Dosing - pH I PPM I DO I Temp

Connects Wirelessly to Smartphone or Tablet *Not Included

- Smart Water Wireless Nutrient Controller
- pH, EC/PPM, DO & Temp Probes
- 2x Tank Level Switches
- 5x Remote Dosing Pumps (80mL/min)
- Nutrient Injection & Probe Manifold with Tubing

Add Complete Environmental Monitoring

- Temperature
- Humidity
- VPD
- CO2
- Lighting

Environmental Sensor Module

Monitor - Temperature, Humidity, VPD, CO2 and Lighting

- Sensor Readings Display in Growlink App
- Wirelessly Connects to Nutrient Controller

*OPTIONAL ADD-ON
