

GREEN PLANET ULTIMATE FEEDING PROGRAM

THIS FEED PROGRAM IS ONLY A GUIDE. BE SURE TO KNOW THE MAXIMUM PPM YOUR PLANTS CAN HANDLE BEFORE FEEDING.

ALL AMOUNTS PER GALLON.

Note: Always mix nutrients & additives in reservoir individually. All PPM ranges are based on using a 500 TDS scale.

Ocean Magic also works as a great foliar spray

This is an alternating program where you water once and then you feed once.

SEEDLINGS/CUTTINGS (18-24 HOURS OF LIGHT) TDS - PPM: 200—250	Grow A	Grow B	Aussie Tonic	Ocean Magic
	2 ml	2 ml	2 ml	2 ml

PRO LEVEL

GROW STAGE (18 HOURS OF LIGHT)	Grow A	Grow B	Aussie Tonic	Pro-Cal
WK 1 TDS - PPM: 650—700	6 ml	6 ml	4 ml	6 ml
WK 2 TDS - PPM: 700—750	8 ml	8 ml	6 ml	6 ml
WK 3 TDS - PPM: 900—950	10 ml	10 ml	6 ml	10 ml
WK 4 TDS - PPM: 900—950	10 ml	10 ml	6 ml	10 ml

Zyme Caps	GPF Uptake*	Root Builder	Liquid W8
1 cap/10gal	6 ml	10 ml	6 ml
1 cap/10gal	6 ml	0 ml	6 ml
1 cap/10gal	10 ml	10 ml	6 ml
1 cap/10gal	10 ml	0 ml	6 ml

*For SOIL applications we recommend **GPH Uptake** instead of GPF Uptake.

Due to beneficial microbes in this program, do not use hydrogen peroxide or chlorinated water.

BLOOM STAGE (12 HOURS OF LIGHT)	Bloom A	Bloom B	Aussie Tonic	Pro-Cal	Massive	Finisher
WK 1 TDS - PPM: 1200—1250	8 ml	8 ml	0 ml	10 ml	20 ml	0 ml
WK 2 TDS - PPM: 1200—1250	10 ml	10 ml	0 ml	10 ml	20 ml	0 ml
WK 3 TDS - PPM: 1300—1400	10 ml	10 ml	6-8 ml	10 ml	20 ml	10 ml
WK 4 TDS - PPM: 1300—1400	10 ml	10 ml	6-8 ml	10 ml	20 ml	10 ml
WK 5 TDS - PPM: 1300—1400	10 ml	10 ml	6-8 ml	10 ml	20 ml	10 ml
WK 6 TDS - PPM: 1300—1400	10 ml	10 ml	6-8 ml	10 ml	20 ml	10 ml
WK 7 TDS - PPM: 1300—1400	10 ml	10 ml	6-8 ml	10 ml	20 ml	10 ml
WK 8 TDS - PPM: 0	0 ml	0 ml	0 ml	0 ml	0 ml	10 ml

Zyme Caps	GPF Uptake*	Root Builder	Liquid W8
1 cap/10gal	10 ml	10 ml	6 ml
1 cap/10gal	10 ml	0 ml	6 ml
1 cap/10gal	10 ml	10 ml	6 ml
1 cap/10gal	10 ml	0 ml	6 ml
1 cap/10gal	10 ml	10 ml	6 ml
1 cap/10gal	10 ml	0 ml	6 ml
1 cap/10gal	10 ml	10 ml	6 ml
1 cap/10gal	10 ml	10 ml	6 ml
1 cap/10gal	0 ml	0 ml	6 ml

Lights Off Temperature: 70 - 72°F (never below 70°F)

Lights On Temperature: 80 - 85°F

Water Temperature: 68 - 72°F

Desired PH: 6 - 6.5

Humidity: 50%

We also recommend using pure concentrate **PH UP** and **PH DOWN**.

AUSSIE TONIC is a comprehensive blend of carefully selected vitamins designed to reduce plant stress while supporting essential functions. Aussie Tonic can be used on cuttings, transplants and for general health. A must use.

BIO GOLD is a storehouse of rhizospheric micro-organisms that colonize the rootzone creating an unparalleled environment for healthy plant growth. Currently not for sale in California.

BRIX+ is a unique formula designed to achieve MAXIMUM yields. Formulated using only the finest high quality natural ingredients. Brix+ is readily available for direct absorption into your favourite flower or herbs for noticeable results.

BUD BOOSTER is an original bloom additive from Green Planet. This product, because of its high level of phosphorus, helps promote blooming and assists in the plant's metabolism during the middle of the flowering stage. The potassium helps improve the quality of your flowers/fruit and helps with the plant's starch production. Currently not for sale in California.

CLEAN SLATE is used as a rootzone cleaning and conditioning agent. Clean Slate is not a fertilizer. Clean Slate can be used throughout the lifecycle of the plant.

DENSE - Potassium is needed in relatively large amounts to support the various plant functions critical for huge yields. Potassium is vital in the activation of more than 80 plant enzymes that regulate various functions including the opening and closing of the stoma necessary for proper gas exchange and water usage. Potassium is also very important in the utilization and conversion of Phosphorous into an energy source.

ECO ROOT Dip Gel contains 16 different forms of mycorrhizal fungi to build a natural microbial system in and around plant roots to enhance growth and vigor. This product is not to be used with chlorinated water. Currently not for sale in California.

FINISHER is a super additive used to finish off your flowering cycle. This product was formulated to get the absolute most from your flowering plants. Finisher is a must have for use in the last three to six weeks of flowering.

GPF is a premium lower molecular weight humic acid that plays a vital role as a chelator of essential minerals and organic compounds allowing them to pass through cell membranes much more efficiently. GPF plays the same roll as GPH but can be used in hydroponic or recirculating systems. Currently not for sale in California.

GPH is a premium liquid humic acid sourced from Humalite. Humalite is a fresh water deposit of oxidized organic compost proven to be the most bioactive humic source. GPH is for any soil or soilless garden and increases nutrient absorption through all stages of plant growth as well as provides an energy source for beneficial microbes. Currently not for sale in California.

GREEN SHEEN is a plant care product designed to clean plant surfaces of toxins and debris that can accumulate on plants surfaces during the growing cycle. Dirt and toxic debris can reduce photosynthesis and increase stress, making plants more susceptible to pests and diseases that reduce harvestable yields.

HYDRO FUEL GROW AND BLOOM is a premier 2 part nutrient system containing all primary, secondary and essential micro-nutrients necessary to encourage robust vegetative growth and heavy dense flowers and fruit. Hydro Fuel Grow and Bloom formula can be used in both hydroponics or recirculating systems and soil/soilless run to waste systems.

HYDR-OX is a 29% Tech Grade Hydrogen Peroxide for oxygenation and disinfecting hydroponic systems.

KARBO BOOST is a general additive used throughout the plant cycle and is suitable for any feed program. Currently not for sale in California.

LEAF SLICK is a wetting agent that lowers the surface tension of water. When used with a foliar spray, Leaf Slick improves coverage on plants, lengthens contact time and produces a finer spray.

LIQUID W-8 is an excellent carbohydrate supplement that provides an added energy source for your plants giving you huge impressive flowers and fruits. Beneficial carb sources support both your plant directly and act as a food source for the microbial life in the root zone. Derived from organic unsulfured molasses. Currently not for sale in California.

MASSIVE BLOOM FORMULATION is a great flowering additive that is used throughout the flowering stage. It will supercharge your flowers making them bigger and denser using a carefully assembled blend of naturally derived nutrient components.

MEDI-ONE is an exciting product that is 100% natural, intended for fast growing annuals. Medi-One is a complete one part grow through bloom. We have made it so easy that all you have to do is adjust the PH and add it to your plants.

OCEAN MAGIC is an organic extract from Atlantic Sea kelp harvested from the unpolluted waters of the northern Atlantic Ocean. Ocean Magic is cold processed to retain all of the vital minerals and nutrients. Ocean Magic contains a wealth of 100% organic nutrients, amino acids, bio stimulants and enzymes. Ocean Magic can be used as a foliar spray, soil drench and is suitable for hydroponic systems. Currently not for sale in California.

PLANT GUARD helps strengthen the cell walls of your plants as well as help your plant through conditions like heat stress and drought through the addition of Silica. Potassium Silicate also raises PH. Currently not for sale in California.

PRO-CAL is an excellent supplemental source of Calcium, Magnesium and Iron. Plants engaged in rapid growth can often come up short on these essential elements so supplementation is a great idea. The savvy grower makes Pro-Cal a must have in their arsenal of plant growing weapons.

ROOT BUILDER is a broad spectrum of beneficial micro-organisms which promote plant nutrient uptake, and reduces disease for soil and hydroponic systems. Currently not for sale in California.

SACRED OIL is a cold pressed extra virgin oil from the seed of the neem tree (Azadirachta Indica). Sacred Oil cleans away dirt and toxins and allows for better gas exchange. Currently not for sale in California.

ZYME is a comprehensive blend of cell wall degrading enzymes and bio catalysts in a dry encapsulated formulation. The enzymes in Zyme have the ability to degrade and convert dead plant material such as discarded roots and other organic matter into usable or readily available nutrients. Currently not for sale in California.
