CytoPlus™

CytoPlus™ offers all the benefits of seaweed and micronutrients, enhanced by BioAg's superior humic acid concentrate. CytoPlus feeds soil microbes while also improving plant growth and yield. This formula is especially beneficial when used during key transitional periods, such as vegetative to bloom. Works fantastic in a compost tea!

Benefits

- Improves efficiency of applied fertilizers
- Increases flowering, fruit set, improves soil tilth, and increases trace element levels
- Increases water holding capacity and CEC of the soil
- Improves overall plant health and decreases risk of abiotic stress
- Optimizes plant performance and improves soil conditions for improved crop establishment

Application Rates

Soil/Soiless/Hydroponics	1/2 tsp -1 tsp/gal
Compost Tea/Foliar Sprays	1/8 tsp-2 tsp/gal
Soil Fertility	3-12 lbs/acre
Soil Mixing	1-2 lbs/cubic yard
Lawn & Garden	2-4 oz/1,000 sq ft

0-0-7.5

CytoPlus™ can be applied to all crops including; trees, vines, ornamentals, small fruits, vegetables, row crops, feed crops, forage, and pasture. It can be applied by in-furrow, spray, fertigation, and side dress. Consult with your agronomist for the correct number of applications.

Physical Properties

Form	powder or granular
Color	dark brown/black
Odor	mild odor
Solubility	95-99% water soluble
pH	9-11

Guaranteed Analysis

Component	Analysis
Humic Acid	40%
Soluble Potash	7.5%
Sulfur	3.25%
Boron	0.25%
Cobalt	0.035%
Copper	0.13%
Iron	0.9%
Manganese	0.8%
Molybdenum	0.05%
Zinc	0.5%
