

Formulated For All Hydroponic Applications

CLEAR LINE

DRIP SYSTEM DE-SCALER

- ▶ **Keeps Irrigation Lines & Emitters Free from Mineral Build-Up**
- ▶ **Use in Pressure Compensated Drip Systems**
- ▶ **Fertigation Compatible**
- ▶ **Commercial Strength Hypochlorous Acid**

5 Gal (18.9 L)
Net Weight: 42.1 lbs (19.1 kg)

CULTIVATION SOLUTIONS

CLEAR LINE

CLEAR LINE is formulated to keep drip irrigation lines and emitters clean and free of mineral deposits during cropping cycles. Implementation of CLEAR LINE protects drip irrigation systems, reducing costly repair and replacement of components.

APPLICATIONS

CLEAR LINE may be used in all irrigation and hydroponic applications including: Drip Irrigation (Drain to Waste), Water Culture (DWC, RDWC, NFT) and Aeroponics. CLEAR LINE can be used along with your regular fertilizer program or as irrigation line/system shock.

DIRECTIONS FOR USE

CLEAR LINE is most effective when used consistently for preventative maintenance.

CLEAR LINE should be injected into fertigation equipment along with standard crop nutrition inputs. Depending on proportioning equipment capabilities, CLEAR LINE can be injected as a concentrate or as a diluted solution. Use at the following ratios for the defined application:

DRIP IRRIGATION (DRAIN TO WASTE)

0.25mL - 1mL per/gal. ~1:16,000 - 1:4,000 Ratio

WATER CULTURE (DWC, RDWC, NFT)

0.75mL - 1.5mL per/gal. ~1:6,000 - 1:3,000 Ratio

AEROPONICS

0.5mL - 1mL per/gal. ~1:8,000 - 1:4,000 Ratio

IRRIGATION LINE/SYSTEM SHOCK (NO PLANTS)

7.5mL - 15mL per/gal. ~1:500 - 1:250 Ratio

Run through system for 2-4hrs

WARNINGS

Protect from freezing and direct sunlight.

KEEP OUT OF REACH OF CHILDREN

STORE IN A COOL DARK PLACE
