Introduction

XPOWER Air Movers are ETL/CETL/CE/GS certified and multifunctional Air Mover with the most efficient engineering design. All XPOWER Air

Features:

- Low power draw with a velocity over 2400 CFM when switch on High.
- · Super quiet motor and super light weight.
- Optional Easy clean filter system.
- Easy carrying and storage stackable.
- Easily disassembled for thorough cleaning and service.
- "Power cord" lengths are 20'/25' in US and 10' for Canada
- · Easy cord wrap on handle
- · Safety screens on open vents.
- · 3-speed switch.
- 4 air-flow positions (0°, 20°, 45°, 90°).

Durable and ruggest housing with a 5 Year Warranty

Operation / Instructions

XPOWER Air Movers are intended to move air and to dry floors, walls, furniture, etc. Durable and easy to operate with an effective balance of static pressure and airflow, the units are suitable for a variety of applications.

- XPOWER Air Movers are shipped ready to be put into service.
 Prior to plugging the unit into the power source, inspect completely for any shipping damage.
- 2. Plug the electrical cord into the power outlet.
- 3. Carefully place the Air Mover unit on a stable, flat dry surface.
- The unit has four air flow positions, capable to aim airflow across flat surfaces or angled upward.
- Turn the switch to desired speed and make sure it is operating correctly.

BLOWER / FAN STORAGE:

Air Movers can be stacked (up to 4) on their sides for storage.

NOTICE:

- Stacking feature is not secure for transportation.
- 2.Remove the filters before stacking.

Safety Instructions

- To prevent electric shock, do not operate unit in standing water. Never plug in or unplug the unit with wet hands or while standing in water.
- 2. To avoid risk of injury, do not direct air flow at face or body.
- To reduce the risk of fire or electric shock, do not use unit with any solid-state speed control device.
- Use only with GFCI protected receptables. Please contact a qualified electrician for verification and/or installation of a GFCI receptable if necessary.
- Do not operate any Air Mover with a damaged cord or plug. Discard the unit or return it to an authorized service facility for examination and/or repair.
- 6. Unplug the unit from the power source beforeservicing or cleaning.
- Do not run the power cord under carpeting. Do not cover the power cord with throw rugs, runners, or similar coverings. Place the power cord away from traffic area to prevent tripping.
- 8. Do not allow children to play with or around an Air Mover at any time.
- 9. Do not move or carry an Air Mover while unit is operating.
- 10. All Air Movers in operation must be supervised at all times.

Maintenance Instructions

- To keep the Air Mover clean, use a damp cloth to wipe the surface of the housing.
- 2. Never clean the Air Mover with water.
- 3. When not in use unplug and store the Air Mover in a dry indoor place out of reach of children.
- 4. Always disconnect the Air Mover from its power source before performing any maintenance or cleaning.
- Clean the filters (optional item) as often as necessary to avoid loss of airflow.

Troubleshooting

For any problems not listed below, call your local distributor or contact our Service Department.

PROBLEM	POSSIBLE CAUSE	SOLUTION
	No power input	Plug in the Air Mover; check circuit breaker
A := NA==================================	Switch not turned on	Turn on switch
Air Mover not running	Air Mover fan wheel jammed	Remove material jamming fan wheel
,	Intake or exhaust blocked	Turn unit off and allow to cool, then remove blockage
Air over vibrates excessively	Accumulation of dirt on fan blade	Clean Air Mover fan blades

XPOWER Limited Warranty (USA)

XPOWER Warranty covers the unit from defects in materials and craftsmanship. The Warranty covers normal use for a term of one year from the original date of purchase including parts, labor and one way shipping. The XPOWER Air Mover Housing is covered for a term of five years from the date of original purchase.

Important!

Warranty does not cover signs of misuse including, but not limited to, a unit that has been dropped, subjected to water damage, tampered with, improper voltage use and unauthorized maintenance and repairs. The POWER CORD and FILTERS are not covered by the warranty.

Service

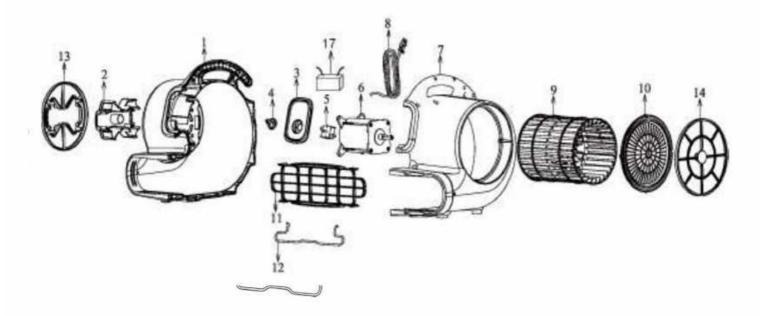

In order to receive service or replacement parts under warranty, you must:

- A. Must Call for a Return Merchandise Authorization (RMA) number through Service Department and obtain ship back instructions.
- B. Must have original proof of purchase.
- C. Must use original none damaged packaging or Industrial certified packaging method.

The end user will be responsible to ship the unit (with the RMA number showing on the shipping label) to the XPOWER Service Department. Upon inspection, we will advise you of the repairs needed and the cost (if applicable). XPOWER will provide repair or replacement parts depending on warranty.

600 Series Parts List

Item No.	Parts Name	Item No.	Parts Name
600-1	Left Housing	600-2	Grid Cover (Motor Side)

Accessories

Daisy Chain Specifications (applicable for model X-600A)

XPOWER Air Mover Model X-600A is daisy chainable with a low 3.8 amp draw. The 12-amp on-board circuit breaker will allow two (2) additional X-600A units to run on one circuit at the same time.

Note:

Air Mover has an on-board circuit breaker. If the auxiliary outlet overloads, the circuit breaker will trip. If the breaker trips, unplug the units and press the circuit breaker reset button.

Plug the units back into the power source and turn on the switch.

Filters (optional)

Accessories

A set of filters is available for the XPOWER Air Mover which will help prevent small debris and dust from entering the Air Mover. To clean the filters: remove filters from the unit and wash with warm soapy water, rinse with clean water and let dry thoroughly before reinstalling.

Installation:

Filters snap into the air inlets.

Note:

Filter I is for the Motor side, Filter II is for the Fan side

Filter Removal:

Pull the filters out of the blower.

Note

After cleaning make sure the filters are dry before installing.
