

BioBud is a unique catalyst that encourages profuse flowering and vigorous fruit development. BioBud enhances the natural bloom process, resulting in a more bountiful harvest with superior flavor and aroma. Use with General Organics BioThrive or any other fertilizer as a premium bloom booster.

General Organics provides gardeners with a complete line of superior organic based plant foods and supplements. We combine traditional gardening techniques with the ecological and efficient materials of the future. Each product in the "GO" line enables you to enrich your garden, your life, and the planet. General Organics foundation rests upon our deep commitment to provide simple and innovative products with unsurpassed quality.

Usage:

For Light Feeding:

Add ½ teaspoon of BioBud per gallon of water.

For Heavy Feeding:

Add 1 teaspoon of BioBud per gallon of water.
