

GENERAL ORGANICS®

BioThrive® Grow provides plants with essential nutrients for roots, stems, and foliage. Our vegan formulation, derived from premium plant and mineral extracts, encourages beneficial microbial activity in the root zone. BioThrive Grow is ideal for all types of plants in all phases of growth, and can be used with a wide variety of garden soils and potting mixes.

General Organics provides gardeners with a complete line of superior organic based plant foods and supplements. We combine traditional gardening techniques with the ecological and efficient materials of the future. Each product in the "GO" line enables you to enrich your garden, your life, and the planet. General Organics foundation rests upon our deep commitment to provide simple and innovative products with unsurpassed quality.

Usage:

For Potting Mixes:

Light Feeding:
Add 2 teaspoons of BioThrive Grow per gallon of water with every watering

Heavy Feeding:

Add 4 teaspoons of BioThrive Grow per gallon of water with every watering. *If using soils low in calcium, coir, perlite, rock wool or any sterile media, we recommend that you include CaMg+ for best results.*

For Hydroponics:

Add 2-4 teaspoons of BioThrive Grow per gallon of water for every nutrient change. Keep nutrient solution aerated with coarse bubble. To achieve a complete nutrient profile for hydroponic culture you must include CaMg+.

VGANIC™ contains no animal derived ingredients
