

Declaration of FDA Compliance

PTFE Sheets

Included Products

Product cut sizes offered: 9.5in x 20.25in and 12.5in x 20.25in.

Basis weight: .048lb/ft²

Thickness: .004"

Thickness Tolerance: +/- .0005"

Statement

This product is intended for heat pressure filtration $\leq 300^{\circ}\text{F}$. PurePressure recommends, after heat pressure filtration, to remove the oil from the PTFE sheet before pursuing any post processing methods. Use up to 5 times for heat pressing before disposal.

Materials

PurePressure declares these sheets are manufactured with virgin Polytetrafluoroethylene (PTFE). PTFE is a synthetic fluoropolymer of tetrafluoroethylene; qualities include excellent heat resistance and being hydrophobic, a non-wetting high density material. This material complies with FDA 21 CFR 177.1550 substances for use as basic components of single and repeated use food contact surface.

Disclaimers

It is the responsibility of the processor to ensure that the article is suitable for the intended purpose.
