## HOUSE & GARDEN NUTRIENTS

### PREMIUM NUTRIENTS & ADDITIVES

### Specialty Items

**Base Nutrients**

**Soil A/B** provides balanced nutrition for enriched soils and contains essential nutrients, including a significant amount of calcium.

**Aqua Flakes A&B** provides the highest quality, fully soluble nutrients designed specifically for recirculating hydroponic applications. Low ppm base is perfect for ebb and flow, DWC, aeroponics, and any type of rockwool. Also use Aqua Flakes in inert peat mixes for best results.

**Coco A&B** is formulated to provide the perfect ratio of nutrients while taking into account the cation-exchange capacity of coco. Coco coir as a medium has unique properties that are distinct from soils and hydroponic media.

**Bio 1-Component** Soil enables a grower to customize the level of calcium in their soils. Also use it for soils that are heavy in lime.

**Additives**

**Roots Excelsiorator Gold**  
For soil, coco, and peat applications. The world famous Roots Excelsiorator with its well kept secret formula, is used for cuttings, seedlings, and plants in the vegetative and early flowering stages. Can be used at 1/4 - 1/2 Strength in most Hydro.

**Roots Excelsiorator Silver**  
Classic formula that is compatible in hydroponic and recirculating systems.

**Drip Clean**  
For use in all grow systems including hydro, coco, soil, and peat.

**Multi Zen**  
This unique formulation helps to achieve maximum growth with every harvest.

**Algen Extract**  
A premium Norwegian Sea Kelp blend derived by way of "cold press" technology which helps preserves its quality.

**Amino Treatment**  
Helps to strengthen plant and build a healthy foundation for later in flowering.

**Nitrogen Boost**  
Use this product to customize a plant's level of nitrogen and keep everything green. Certain Strains can utilize this product deep into flowering.

**Bud-XL**  
Use Bud XL in the finishing weeks of flowering to improve the plants natural flavors in the fruit sets.

**Top Shooter**  
Top Shooter is the liquid version of Shooting Powder for growers that prefer liquids to powders.

**Top Booster**  
Top Booster provides essential nutrients needed for ripening and helps set the stage for Bud XL and Shooting Powder.

**Shooting Powder**  
Shooting Powder contains pH-balanced levels of premium grade proprietary ingredients including potassium and phosphorous to enhance yields.

**PH Stabilizer**  
For reverse osmosis (RO) or rain water applications, PH Osmosis / Stabilizer is a great alternative.

**Magic Green**  
A foliar spray used to increase vitality and help the plants get what they need for a successful flowering period.

**Rhizo Force**  
A granular slow-release product that enriches soil, coco and peat-based media with essential ingredients.
