

BLACK SEA KELP

1-1-10

Net Content: 1 Gallon (3.78 L)

Net Weight: 8 lbs (3.78 kg)

Black Sea Kelp

1-1-10

Guaranteed Analysis:

Total Nitrogen (N) 1.0%
1.0% Water Soluble Nitrogen
Available Phosphate (P₂O₅) 1.0%
Soluble Potash (K₂O) 10.0%
Derived from: Ascophyllum Nodosum, Potassium Hydroxide

Black Sea Kelp adds potassium and naturally occurring plant hormones to the soil. It also helps maintain moisture levels in soil.

Black Sea Kelp can be applied to flowers, fruit, vegetables, ornamentals, turf, tree and vine crops, field crops, row crops, trees, etc.

Mixing Instructions: *When mixing with water, fill container halfway, then add product and the remaining water.*

Gallon Mix: While agitating the solution add 3 fluid ounces of **Black Sea Kelp** to 1 gallon of water.

Tank Mix: While agitating the solution, add 1 gallon of **Black Sea Kelp** to 50 gallons of water.

Tank Mixes: Do not mix with pesticides or other chemicals without a compatibility test. A compatibility test involves mixing, in a small container, the proper proportions of the product with water and the other ingredients. Agitate and let stand for one hour. If a precipitate forms then apply the products separately.

Application Rates: *(For more application rates visit our website: www.southernorganicsandsupply.com)*

Apply 50 gallons of **Black Sea Kelp** mixture per acre. (40 ounces applied per 1,000 ft².)

Direction For Use: Shake well. Do not store diluted.

Frequency: Apply **Black Sea Kelp** two times annually or as needed.

Note: More frequent applications at lower rates are generally more effective than fewer applications at higher rates.

Please see SDS (Safety Data Sheet) if any concerns arise.
