Boro-Mino™

Boro-Mino™ is an organic micronutrient fertilizer complexed with amino acids. It is a fine, free-flowing, hygroscopic, spray-dried powder that contains short chains of amino acids in peptide form, derived from enzymatic hydrolysis of non-GMO soybeans. It is a low-sodium, low-nitrate, sprayable concentrate. Multi-Mino should be used as part of a complete fertilizer program to address micronutrient deficiencies and to feed the soil biology. It can be used throughout the entire life cycle of the crop.

Benefits

- Improves efficiency of applied fertilizers
- Provides an excellent food source for microbial population
- Enhances micronutrient uptake via natural complexing agent
- Improves overall plant health and decreases risk of abiotic stress
- Can be used immediately to address micronutrient deficiencies
- Optimizes plant performance and improves soil conditions for improved crop establishment

Application Rates

Soil/Soilless/Hydroponics	1/4 tsp -1 tsp/gal
Foliar Sprays	1/4 tsp-1 tsp/gal
Soil Fertility	1-2 lbs/acre
Lawn & Garden	1/4 tsp-1 tsp/gal

Boro-Mino™ can be applied to most crops including; trees, vines, ornamentals, small fruits, vegetables, row crops, feed crops, forage, and pasture. It can be applied by in-furrow, side dress, spray, and fertigation. Consult with your agronomist for the correct number of applications.

Warning: Contains boron. Do not use on sensitive crops. Use only according to manufacturer's directions. The use of this material on any crops other than those recommended may result in injury.
