### Ful-Humix L™

Ful-Humix L™ is a soluble, concentrated humic acid liquid and powerful soil/nutrient activator. In the root zone it reduces the uptake of sodium, aluminum and other metals that negatively affect plants. Ful-Humix® prevents the tie up of nutrients and trace elements through chelation and complexing. All crops should be using Ful-Humix L. It can be used in all production systems and throughout the entire lifecycle of the crop. Also, make sure to use it during the spring season as this is when it will be most effective and you will see the most long-term benefits.

### Benefits

- Improves efficiency of applied fertilizers
- Early applications show positive effect on cell elongation, cell division, and root development
- Increases water holding capacity and CEC of the soil
- Improves overall plant health and decreases risk of abiotic stress
- Optimizes plant performance and improves soil conditions for improved crop establishment

### Application Rates

Soil/Soiless/Hydroponics	15-30 ml/gal (1:100 to 1:300 dilution)
Compost Tea/Foliar Sprays	15-30 ml/gal (1:100 to 1:300 dilution)
Soil Fertility	16 fl. oz - 4 gal/acre
Foliar - General Fertilizer	16 fl. oz - 1 gal/acre
Foliar Tank Mixing	6.4 fl. oz - 16 fl oz./acre
Lawn & Garden	1/3-1 fl. oz/gal (1:100 to 1:300 dilution)

Ful-Humix L™ can be applied to all crops including; trees, vines, ornamentals, small fruits, vegetables, row crops, feed crops, forage, and pasture. It can be applied by in-furrow, and at planting. Consult with your agronomist for the correct number of applications.

### Physical Properties

<b>Form</b>	liquid
<b>Color</b>	dark brown/black
<b>Odor</b>	mild odor
<b>Solubility</b>	100% soluble
<b>pH</b>	9-11
