

FUL-POWER®

MADE USING A COLD-MICROBIAL EXTRACTION PROCESS.

CONTAINS NON-PLANT FOOD INGREDIENTS:

1%... Fulvic Acids

Derived from: Leonardite.

Purpose: May enhance nutrient uptake.

DIRECTIONS FOR USE

GREENHOUSE & INDOOR PRODUCTION

SOIL/SOILLESS/HYDROPONICS: 15-30 ml/gal (1:100 to 1:300 dilution)

COMPOST TEA: 15-30 ml/gal (1:100 to 1:300 dilution)

FOLIAR SPRAYS: 15-30 ml/gal (1:100 to 1:300 dilution)

PROPAGATION: Soak for 24hrs at 35 ml/gal (1:100 dilution rate)

SEED ACTIVATION: Soak for 24hrs at 35 ml/gal (1:100 dilution rate)

Soak vegetable seeds for 72hrs at 35 ml/gal (1:150 dilution rate)

CUTTING/CLONES: 20 ml/gal, two times per week

FIELD APPLICATION

SOIL FERTILITY: 16 fl. oz to 4 gal/acre

FOLIAR- GENERAL FERTILIZER: 16 fl. oz to 1 gal/acre

FOLIAR TANK MIXING: 6.4 fl. oz to 16 fl. oz/acre with the appropriate rate for adequate coverage

LAWN & GARDEN: 1/3 to 1 fl. oz/gal (1:100 to 1:300 dilution rate)

Appx 30 ml = 1 fl. oz, 1:100 dilution = 0.5 fl. oz/gal

GENERAL INFO: For proper agronomic application rates for your crop, soil type, and climate please consult with a local crop advisor, farm advisor or agronomist.

Information regarding the contents and levels of metals in this product is available on the internet at: <https://www.aapfco.org/metals.html>

STORAGE: Store in cool, dry environment. Keep product in sealed container away from moisture.

CAUTION NOTICE: Buyer assumes all risk for use not in accordance with labeled directions. Harmful if swallowed. Avoid contact with skin, eyes, open cuts, and sores. Wash hands after use.

BIOAG®

CREATED FROM PRE-HISTORIC PLANT MATERIAL

HYDROPHOBIC FULVIC ACID

NET CONTENTS:
1 QUART (.95L) 2.1LB

HYDROPHOBIC FULVIC ACID MAXIMIZE POTENTIAL!

Ful-Power™ is an essential component for all growing styles and foliar spray applications. Hydrophobic fulvic acid is a missing link in most plant systems.

Why do we brag about the purity from our cold-microbial extraction process? Simple: increased efficacy and ease of use! Ful-Power is compatible with all fertilizers. Because our method does not require any preservatives, micronutrient, or chemical extractants, our application rates can be based on what works! Try a dose and see.

Use in a wide variety of applications including containers, soil, hydroponic, turf, foliar sprays, aquaponic, clones and cuttings, bare-root dips, seed activation programs, and compost teas. Ful-Power is a golden hydrophobic fulvic and does not stain, clump, gum up or drop out.

Ful-Power is fermented by BioAg: Inspired by Nature, Elevated with Science.
