Multi-Mino™

Multi-Mino™ is an organic micronutrient fertilizer complexed with amino acids. It is a fine, free-flowing, hygroscopic, spray-dried powder that contains short chains of amino acids in peptide form, derived from enzymatic hydrolysis of non-GMO soybeans. It is a low-sodium, low-nitrate, sprayable concentrate. Multi-Mino should be used as part of a complete fertilizer program to address micronutrient deficiencies and to feed the soil biology. It can be used throughout the entire life cycle of the crop.

7-0-0

Benefits

- Improves efficiency of applied fertilizers
- Provides an excellent food source for microbial population
- Enhances micronutrient uptake via natural complexing agent
- Improves overall plant health and decreases risk of abiotic stress
- Can be used immediately to address micronutrient deficiencies
- Optimizes plant performance and improves soil conditions for improved crop establishment

Application Rates

Soil/Soilless/Hydroponics	1/2-1 tbsp/gal
Foliar Sprays	1/2 tsp-1 tbsp/gal
Soil Fertility	1-2 lbs/acre
Lawn & Garden	0.5-2 oz/gal

Multi-Mino™ can be applied to most crops including; trees, vines, ornamentals, small fruits, vegetables, row crops, feed crops, forage, and pasture. It can be applied by in-furrow, side dress, spray, and fertigation. Consult with your agronomist for the correct number of applications.

Warning: Contains boron. Do not use on sensitive crops. Use only according to manufacturer's directions. The use of this material on any crops other than those recommended may

Physical Properties

Form	powder
Color	blue/green
Odor	non-distinctive
Solubility	100% water soluble
pH	4-6
