

THE MISSING LINK

For the Ultimate Immune System

PROPRIETARY BLEND
FROM BIONOVA!

-  USDA Certified - 100% **ORGANIC** and **VEGAN** blend of plant stimulants
-  **RARE-EARTH MINERALS** help control viruses and bacteria
-  Will **TEST CLEAN** for heavy metals
-  Contains **EXCLUSIVE MICRO-ELEMENTS**

BENEFITS OF USING TML

- Stimulates the plant's natural immune system.
- Increases ability to uptake essential nutrients.
- Nutrient uptake over a wider pH range.
- Boosted immune system decreases stress factors.
- Micro-elements fully round out plant nutrition.
- Can be used for entirety of veg and bloom cycles.

THE MISSING LINK

For the Ultimate Immune System

WHAT'S INSIDE and WHY?

Water Soluble Derivative of Humic Acid

Sourced from the best mine in the world, this ingredient provides exceptional nutrient absorbability for your plants. The low molecular weight of this derivative of humic acid allows it to cross the plant's membranes and penetrate the leaves quite easily. Furthermore, it assists other nutrients in crossing plant membranes ultimately increasing the plant's ability to uptake all essential nutrients.

Bionova Rare-Earth Minerals

Creates the ultimate immune system for plants. Infections and insects are less likely to harm plants.

Naturally Chelated Iron

Prevents and cures chlorosis. It's essential for chlorophyll production, is required for nitrogen-fixation, and is used to regulate plant transpiration.

Sulfur (SO₃)

Promotes the synthesis of sulfur-containing amino acids and helps prevent fungi infection (example: powdery mildew).
