

The Bruteless™ Hash Washer

Elevate Your Solventless Bubble Hash Production

"Using the Bruteless system cut our wash time,
drain time, and ice usage in half."

- Julian | DabLogic

100% FDA Food Grade Compliant

Bruteless™ vessels are 100% FDA food grade compliant and feature sanitary welded stainless steel. Extremely easy to clean with no nooks or crannies for bacteria/mold to grow.

Removable False Bottom

A removable stainless steel false bottom protects your trichomes during the wash process, keeping your ice and work bags 3" above your hash. Integrated baffles create a turbulent-free zone at the bottom for gentler resin isolation.

Cryogenic Insulated Sleeve

Thick 1" cryogenic insulated sleeve dramatically reduces ice usage by up to 50%. The Bruteless™ vessels can maintain a constant temperature of 34°F for 90 minutes or more with only one load of ice.

Fill, Skim + Drainage Ports

Each washer offers three strategically placed separate drain/fill ports: one to fill, one to skim, and one to drain. A sturdy stainless steel lid is also included.

The Bruteless™ Can Make These Products and More
