

TipTopBioTM Control

HOW IT WORKS

CERTAIN INSECTS ARE PERISHABLE AND TIME SENSITIVE AND ARE BEST IF MAILED DIRECTLY TO THE CUSTOMER. THIS PACKAGE CONTAINS ONE PRE-PRINTED POST CARD. PAY AT THE REGISTER, MAIL IN THE POST CARD, INSECTS WILL THEN BE SHIPPED DIRECTLY TO YOU FROM THE FARM.

RELEASE INSTRUCTIONS

1. Release these Mites at sundown the day of receipt of package. Rotate jar gently to evenly distribute the Mites in the bottle. Then disperse into release pouches.
2. Highly perishable, the predators should be used as soon as possible upon receipt.
3. Open jar in the crop and gently tap out of jar evenly into enclosed pouches which should then be distributed among your infected plants by paper clipping them to the leaves or by placing them in the crotch of the tree.
4. Leave the bottle and pouches in the release area for 24 hours after release to make sure all of the Mites have come out.

Storage: Do not store the Mites in the jar for more than 12 hours. Do not store the Mites in the pouch for more than 18 hours. Store at a humid 40-45°F.

THE ULTIMATE!

AVOCADO MITE EXTERMINATOR

Neoseiulus californicus Predator Mites

PREDATOR to the Persea Mite.

PERSEA MITE

Package Contains: 1,000 N. californicus.

This predatory Mite can penetrate the dense protective webbing formed by the Avocado Mite, which has been introduced from Central America. The Persea Mite can cause Avocado trees to drop their leaves. The release of our predator Mites provides safe and effective control for 1 to 2 trees.

Pay at the register, mail in the post card and the insects will be shipped directly to you from the farm.

Complete release instructions are included with insects. Purchase price includes shipping charges.
