

DFM-2

1.25" Digital inline flow meter

The DFM-1 is a 1.25" digital inline flow meter designed to measure and display liquid flow rate of a 1.25" fluid pipe.

Connect the DFM-2 to the Aqua-X Pro main controller directly or via SPH-1 RJ12 Splitter Hub. Users can then enable powerful advanced features, such as "feed by volume" . Where DFM-2 will accurately measure and allow a precise and desired volume of nutrient solution to be used.

DFM-2 LCD display also functions as an on-site sensor display monitor.

*Future plans: DFM-2 may add features such as water leaks detection and/or line blockages in future updates.

Specifications

DFM-2

Display

Screen Size 1-inch (64*64 dots) LCD Display

Packaging Dimensions

Size 160mm(L) x 85mm(W) x 90mm(H)

Output

Connector RJ12 male connector

Package Content

1.25" Digital Inline Flow Rate Meter 1 pc

Working Environments

Temperature 32°-122°F

Humidity ≤90%

RoHS
