It's always a great day to grow!

Dear Retailer,

Welcome to Volume 4 of our **All-Season Growing** catalog! Inside you'll find a host of exciting new items specifically targeted to your customers, as well as tried-and-true best sellers to keep them gardening all year round.

New Products

Our visual directory of new products starts on page 2—or look for the "new" button as you browse the pages. Here are some highlights:

- **Jump Start Mini Germination Station (p. 7)** – This mini version of our best-selling Germination Station gives seeds an early start indoors for big results in a small space.
- **Upstart Garden Mat (p. 12)** – Our all-in-one planting mat is simple to use – just roll it out, attach your hose, and plant.
- **Salad Box (p. 14)** – Ideal for lettuce, spinach, leafy herbs, and more. Grow your own fresh salad greens with ease!
- **Tan Dirt Pot® (p. 17)** – Your favorite fabric pot is BPA-free, UV resistant—and now available in tan.
- **Phantom CMh Reflector, Ballast and Bulb Kit (p. 43)** – Our next-generation ceramic metal halide lamp includes reflector and ballast for a complete lighting solution.
- **Agrosun Lamps (p. 46–47)** – The "gold standard" in plant growth lighting, used by thousands of satisfied gardeners worldwide!
- **PowerPAR® LED Bulbs (p. 48)** – These professional-grade bulbs deliver spectrum specific light in a compact design.
- **OxyCLONE Pro Series System (p. 58–59)** – Experience maximum cloning performance—oxygen is the heart of this system.

Thank you!

Since 1977, quality and service have made Hydrofarm a trusted source in the indoor gardening industry. Your support and feedback have been instrumental in our growth. We thank you for the opportunity to be a part of your sustainable gardening experience and success.

Best Selection—Guaranteed

Visit us online at hydrofarm.com to see our extensive array of indoor gardening products—including many available exclusively from us!

We have been developing, researching, and searching out the best products since 1977. We focus exclusively on bringing these products to you, so you can focus exclusively on your garden.

Re-engineered for
better performance
and greater durability!

JUMP START SEEDLING HEAT MATS

Our best-selling heat mats are now built with new, stronger heating wire, and thicker multi-layer construction for more uniform heating and the durability to withstand rugged greenhouse environments. Bottom heat improves germination and rooting, providing uniform heat for seedlings and cuttings.

Available in four sizes (all UL-listed) to fit any growing area. Our new mini size is perfect for smaller spaces—start seedlings right on your windowsill!

- MT10004 Windowsill Heat Mat, 3" x 20" ~ 7.3W
- MT10005 Mini Heat Mat, 6" x 14" ~ 8W
- MT10006 1-Flat Seedling Heat Mat, 9" x 19.5" ~ 17 W
- MT10008 2-Flat Seedling Heat Mat, 20" x 20" ~ 45 W
- MT10009 4-Flat Seedling Heat Mat, 48" x 20" ~ 107 W

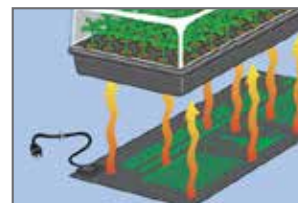

**FULL COLOR
PACKAGING**

- Increases success of seedlings and cuttings
- Warms root area 10-20°F over ambient temperature to improve germination
- Light, watering, and planting information on mat
- Heat bonded, not glued—stays sealed
- 6' power cord
- The original UL listed seedling heat mat
- 50% thicker construction

**WATER
PROOF**

Trays sold separately.

JUMP START HEAT MAT THERMOSTAT

Electronic temperature controller for heat mats puts you in control, providing constant optimum temperatures for specific crops. Compatible with all heat mats—try it with our Hydrofarm Seedling Heat Mats! Features illuminated indicator light, 3-prong grounded plug, and 1-year warranty.

MTPRTC Jump Start Heat Mat Thermostat

NOW WITH DIGITAL DISPLAY

Run up to 10 mats from a single outlet!

60W PROPAGATION MAT

Bottom heat is one of the most important and effective enhancements to germination and rooting. Our new Propagation Mat warms the rooting area to approximately 10°F–20°F above ambient temperature, which markedly improves germination rates and rooting success.

The Propagation Mat is 48" long—perfect for placing two standard trays end-to-end, and ideal for placement under 4-foot fluorescent fixtures. At 12" wide, it also ensures that the entire bottom surface of all your trays will be heated uniformly. These mats can be daisy-chained so you can run up to 10 mats from a single outlet, and their heavy-duty construction and materials will provide years of reliable service. Includes 6' power cord.

19007 60W Propagation Mat, 12" x 48"

DAISY-CHAINABLE!

DIMENSIONS:
12" x 48"

SPECIFICATIONS:
60W | 120V | 50/60Hz

Mega size commercial heat mats maximize your growing area!

JUMP START COMMERCIAL HEAT MATS

Bottom heat is one of the most important and effective ways to improve germination and rooting. Our heavy duty modular Commercial Heat Mats will provide uniform heat for hundreds of seedlings or cuttings.

- Supersized mat measures 60" x 21"—big enough for six flats!
- Provides constant optimum temperatures for specific crops
- Rugged, durable, and waterproof, with waterproof connectors
- Daisy-chain up to 4 mats together
- Plug-in to our Digital Heat Mat Thermostat (MTPRTC)

MTMDU Commercial Heat Mat w/6' Power Cord

MTMDA Modular Add-On Heat Mat

Daisy-chain up to 4 mats and control them all with one thermostat (MTPRTC)!

He looks warm & toasty but we recommend mats for use with trays only!

NOW WITH DIGITAL DISPLAY

HEAT MAT THERMOSTAT

Our heat mat thermostat is digital for greater accuracy, providing constant optimum temperatures for specific crops. Displays temperature in Fahrenheit or Celsius, with a controllable range from 68 to 108 degrees Fahrenheit. Features water resistant stainless steel temperature probe, LED mode indicator lights, 3-prong grounded plug, and 1-year warranty. Max current: 8.3 amps/1000 watts.

MTPRTC Jump Start Heat Mat Thermostat

DAISY-CHAIN UP TO 4 MEGA MATS

Our Mini Germination Station delivers big results in a small space!

JUMP START MINI GERMINATION STATION

Give seeds an early start indoors, or propagate cuttings from your favorite plants any time of year. Each kit includes a reusable watertight base tray, 24-cell insert, ventilated humidity dome, 3" x 20" heat mat, and growing media—choose from rockwool Macro Plugs, or naturally composted Grow Plugs. Also available as a standalone greenhouse (all of the above, minus the heat mat). Dimensions: 15" x 7¼" x 5".

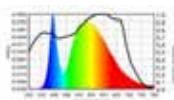

- JS24GP JS Mini Germination Station w/Grow Plugs
- JS24GPM JS Mini Germination Station w/Grow Plugs & Heat Mat
- JS24MP JS Mini Germination Station w/Macro Plugs

**GROW PLUG VERSION
ALSO AVAILABLE
WITH HEAT MAT**

**100+ HR LIGHT
FOR LONG
DISTANCE TRAVEL
"VEG SPECTRUM"**

CLONE SHIPPER CLASSIC WITH LED LIGHT

**PATENT-PENDING
DESIGN!**

Designed to support clones or young live plants, The Clone Shipper Classic plant packaging holds the plant securely in place during transit. What makes the Clone Shipper Classic different from other plant shipping containers? A LED light keeps the plant thriving and growing throughout shipping whereas other containers ship the plant in the dark. The plant shipping packaging allows the plant to breathe and continue to grow during shipment. This design is patent-pending and is only offered through Clone Shipper!

CSU0001 Clone Shipper Classic with LED Light

JUMP START WINDOWSILL HEAT MAT AND TRAY KIT

The Jump Start Windowsill Heat Mat and Tray Kit includes everything you need to start a windowsill garden! It includes two mini greenhouses, each with 12 peat pellets and a Jump Start dome to create the perfect environment for your plants. The kit also comes with the Jump Start Windowsill Heat Mat that fits perfectly underneath the two greenhouses, and is the perfect size for small growing spaces. The 3" x 20" heat mat improves germination by warming the root area 10-20°F over ambient temperature.

JS6120 Jump Start Windowsill Heat Mat and Tray Kit

Everything you need
to start a windowsill garden!

**PERFECT

Upstart GardenMat™

All-in-one planting mat that Jump Starts your garden!

UPSTART GARDEN MAT

Simple to use—just roll the mat out on your prepared patch, staple it down, attach your hose, and then plant seeds using the included 65 non-gmo “seed balls.” Match the included herb, vegetable, and flower seed balls to the labeled mat and press them into the soil. Water by hand initially then irrigate daily for 10-15 minutes (or as needed) and watch them grow!

The Upstart Garden Mat™ blocks weeds and acts as a water saving mulch while the built-in soaker hose keeps watering simple. Get started growing your own food and herbs with the Upstart Garden Mat.

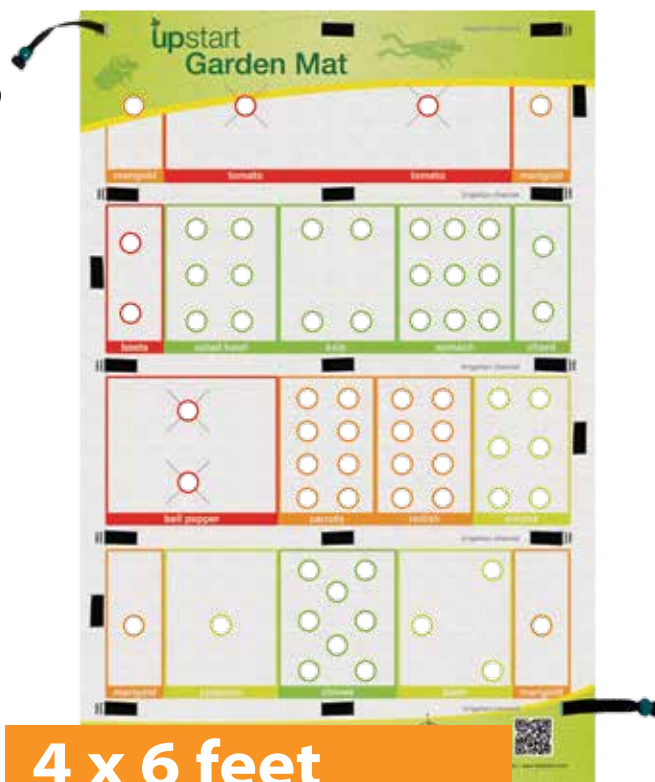

- JS90002 Upstart Garden Mat – 4' x 6' Complete Kit w/Mat, Seeds & Hose
- JS90058 Upstart Flower Seed Ball Pack
- JS90059 Upstart Herb Seed Ball Pack
- JS90060 Upstart Veggie Seed Ball Pack

**INCLUDES, MAT,
SEED BALLS,
AND BUILT-IN
SOAKER HOSE**

BENEFITS OF THE UPSTART GARDEN MAT:

- Optimum planting layout for 14 plant varieties
- Major reduction in garden setup time
- Built-in BPA-free weed barrier means low maintenance and better water retention—reduces water use by up to 70%!
- Built-in soaker hose
- Great educational tool to teach children the joy of gardening

**YOUR SEEDS...
SKIP THE WEEDS!**

4 x 6 feet

GREAT FOR RAISED BEDS

ELECTRONIC WATER TIMER

Simply attach the timer directly to your garden hose to automatically control sprinklers, drip systems or soaker systems. You can set the frequency of watering from 1 hour to 1 week, and the run time from 1 minute to 2 hours. Easy to use—no wiring required!

HGWT Electronic Water Timer

new

**includes

Seed
Balls***

**MADE
IN THE
U.S.A**

*3 basil, 2 beets, 2 bell pepper, 8 carrots, 2 chard, 8 chives, 1 jalapeño, 4 kale, 4 marigold, 6 onions, 8 radish, 6 salad bowl, 9 spinach, and 2 tomato.

**Growth may vary according to plant and conditions*

Gently warm your growing medium for faster germination and better growth!

JUMP START SOIL HEATING CABLES

Insulated soil heating cables gently warm your growing medium for faster germination and better growth. Use indoors or out, in containers, cold frames, or right in the ground for plants that are sensitive to being transplanted. Flexible cable can be arranged to fit any growing area. The integrated thermostat turns the cable off when soil reaches your target temperature, and on again when things cool down.

- Each 12' of cable heats 3 square feet of growing space
- Cable is covered with soft insulated PVC
- All connections are sealed and waterproof

GROWING!**

SIZE: 4½" H x 11¼" W x 22" L

3 Easy steps to fresh homegrown greens:

① QUICK SETUP:

Simply put it together, mix nutrients with water, and pour into reservoir.

② PLANT YOUR GREENS:

Wrap your seedlings /starts and plant into the net cups.

③ WATCH YOUR GREENS GROW!

In just a few weeks your fresh salad greens will be ready for daily harvesting.

System includes:

- Reservoir
- Lid with 8 growing sites
- Extra reservoir on top
- 8 Net cups
- 50 g nutrient powder

TOMATO PLANTERS

Hydrofarm's self-watering tomato planters provide lightweight, strong support for tomatoes, beans, peas, and other climbing plants, and flowers. An easy-fill reservoir system delivers water and nutrients from below, helping avoid over- or underwatering. The sturdy frame construction helps support the weight of vines as they grow, allowing the plant to devote more energy to developing fruit—and preventing the fruit from falling off before it's ripe.

- Expandable—as plants grow, just add extra risers or rings
- Convenient watering port makes refilling easy
- Simple to assemble—no tools required
- Breaks down for easy storage
- Durable plastic construction

TOMATO & PEPPER TREE™

Includes square base and planter, 3 support rings and 3 connecting risers.

- Trellis expands to 3 feet tall
- Planter holds $\frac{3}{4}$ cu ft
- Reservoir holds $\frac{3}{4}$ gallon

GCTT Tomato & Pepper Tree

SIZE: 11" W x 11" W x 8" H

TOMATO CAGE™

Expands to 4 feet tall! Includes three ring extensions.

GCTC Tomato Cage

SIZE:
14 $\frac{1}{4}$ " diameter
x 13 $\frac{1}{2}$ " risers

TOMATO BARREL™

Includes round base and planter, 4 support rings and 4 connecting risers. Extra rings and risers are available separately—make your own tomato cage! (Item #GCTC)

- Trellis expands to 4 feet tall
- Planter holds $\frac{3}{4}$ cu ft
- Reservoir holds 1 $\frac{1}{2}$ gallons

GCTB Tomato Barrel

SIZE: 14 $\frac{3}{4}$ " diameter x 11 $\frac{1}{2}$ " tall

TOMATO TRELLIS™ GARDEN ON WHEELS

Includes rectangular base and planter, 3 risers with supports, and 2 side support brackets.

- Trellis expands to 4 feet tall
- Planter holds 1.5 cu ft
- Reservoir holds 2.5 gallons

GCTR Tomato Trellis Garden on Wheels

SIZE: 13 $\frac{1}{2}$ " W x 13 $\frac{3}{4}$ " H x 29" L

AND PEPPERS!**

Lightweight,
versatile, and
recyclable!

DIRT POT®

Made from porous breathable fabric, Dirt Pots allow your plants to thrive, promoting exceptional root health and vigorous plant growth. The soft-sided construction allows the pot to conform to your terrain, making them the perfect choice for all growing areas. Our pots are stronger than similar products, with reinforced seams and strength-tested fabric, so they won't tear when supporting even the heaviest crop.

- Breathable, BPA-free fabric means superior drainage and aeration
- No root circling
- Manages plant temperatures, keeping plants cooler in summer and warmer in winter
- UV resistant for longer life
- Exceptional value!

Trim clean. Trim safe. Trim fast!

TRIM FAST™ BLADE LUBRICANT

Trim Fast Blade Lubricant is ideal for use on snips, trimming machines, and anywhere else a sterile, food-grade lubricant is required. Trim Fast's natural lubricant never goes rancid, and creates a faster, smoother cutting action while reducing buildup of waxes and resins. Safe to use with live plants. Helps maintain a sterile environment for pruning and propagation, reducing the risk of transferring pathogens between plants.

- Protects blades from dulling and corrosion
- Odorless and colorless
- Evaporates rapidly
- Speeds up trimming
- Reduces sticky buildup

HGPTF4	Trim Fast Blade Lubricant, 4 oz
HGPTF16	Trim Fast Blade Lubricant, 16 oz
HGPTFSUW	Trim Fast Blade Lubricant, Single Use Wipes

CAN-A-WIPES CLEANING WIPES

CAN-A-WIPES cut right through gardening resins stuck to your manicuring tools, and annihilate odors from hands and skin such as diesel, gasoline, and fish smells. This unique cleaning solution causes grease and dirt to cling to the wipe, so it doesn't transfer back to the hands or surface. Can-A-Wipes have a great clean scent and soften the hands rather than leaving them dry and cracked since they contain 4 skin conditioners, including glycerin, lanolin, aloe, and vitamin E. Great for painters, cement masons, commercial fishermen, motorcycle shops, any manufacturing plant, mechanics, plumbers, landscapers, agriculture/farmers, florists, and more.

The original all-purpose home and garden bag!

TRUE LIBERTY® BAGS

True Liberty Bags are used by commercial organic farmers, food storage experts, and hobby growers to keep their foods fresh, healthy, and delicious. True Liberty Bags are safe to use in your conventional oven, freezer, rice cooker, slow cooker, or stove top, as they are resistant to cold, heat, fat, grease, oil, and water. True Liberty Bags have an excellent aroma barrier, which makes for a fantastically versatile, all-around home and garden bag.

TLBSTARTKIT True Liberty Bags Starter Kit

HYDRO HALO WATERING RING

Sturdy plastic ring has 54 precisely placed pores to evenly irrigate containers, eliminating dry pockets of growing medium. One-inch gap allows placement around large plants without damaging stalks. Use indoors or out, in soil, or hydroponics. Easily connect multiple units with any 1/2" I.D. tubing and 1/2" fittings (not included).

- GGWR12 Hydro Halo Watering Ring 12"
- GGWR09 Hydro Halo Watering Ring 9"
- GGWR06 Hydro Halo Watering Ring 6"

SAVE A DROP WATER METER

Over-hydrating plants and shrubs can diminish plant health. Use the easy to read meter to measure how much water is flowing out of the hose. While in use, it calculates both accumulative watering volume and singular waterings, the amount of fluid used in between when you start and stop the hose. Attach the gauge to your sprinkler and know when the time is right to turn your hose on and off. Being aware of water consumption benefits your home, garden, greenhouse, and the planet. The Save A Drop Meter is an important tool to use when keeping your home happy and healthy.

- Prevents over-watering
- Easy to read LCD display
- Calculates both single-use and total water consumption
- Accurately measures to one tenth of a gallon
- Rugged waterproof housing

TAKE "GUESSTIMATES" OUT OF THE EQUATION WHEN WATERING!

LGP0550 Save A Drop Water Meter

ELEMENT GREEN & GROW HOSE

Truly a game changer, with all of the features that today's organic gardener is looking for! This is a lead-free, kink-resistant, phthalate safe, drinking water safe hose with high performance stainless steel couplings and a high burst strength. 50', 5/8" hose. Limited lifetime warranty.

ELGG5850 Element Green & Grow Hose

WATER GARDEN

This 3-gallon fish tank is a closed-loop, self-cleaning ecosystem. Using the science of aquaponics, the fish waste naturally fertilizes the plants above, and the plants, in turn, clean the water for the fish. Great for small pet fish and growing fresh herbs. Includes 3-gallon tank, water pump, all-natural aquatic supplies, organic seeds, 5 grow pots, fish food, and a coupon for a 99 cent Betta fish from Petco.

BRWG001 Water Garden

GARDEN-IN-A-CAN

Ready-to-grow cans that include organic seeds and nutrient rich soil with special moisture-balancing biochar technology to easily grow organic herbs right out of the can. No messy drainage holes, no chemicals, and no transplanting—just plant the seeds, water, harvest, and enjoy!

PLANT, WATER & GROW!

- BRGCC Garden-in-a-Can, Cilantro
- BRGCD Garden-in-a-Can, Dill
- BRGCS Garden-in-a-Can, Sage

MESH TRELLIS NETTING

Soft polyester mesh protects tender vines, foliage, and fruits from ground-rot, insects, rodents, and garden pests. Produces bigger, healthier, and earlier harvests. Increases harvest from small garden spaces and keeps produce clean. Ideal for tomatoes, beans, grapes, clematis, sweet peas, and other vining plants.

- HGN15** 5' x 15' Trellis Netting, 7" Mesh
- HGN30** 5' x 30' Trellis Netting, 7" Mesh
- HGN15S** 5' x 15' Trellis Netting, 3.5" Mesh

TWIST TIE, GARDEN SOFT TIE, PLANT TIES & VINE CLIPS

Ideal for tying plants, vegetables, and vines to stakes and trellises. **TWIST TIE** comes plastic coated with a cutting tool built-in to the dispenser. **GARDEN SOFT TIE** is 5.0 mm and gently secures plants with a padded tie that will not cut in to the stems. **PLANT TIE** is ideal for flowers, vines, tomatoes, and vegetables, and won't cut or damage plants. Measures .48" x 150'. Use **VINE CLIPS** to tie your plants to stakes, trellis, or support wire.

- HGTT** Twist Tie, 50 meters
- HGST** Garden Soft Tie, 3.5 mm x 8 m
- HGPT** Plant Tie
- AD205030** Vine Clips, 100 p/bag*

VELCRO® PLANT TIES

An easy way to train vines or support plants—no knots required! The plant ties are durable, adjustable, and UV resistant. Plant ties wrap around your plant and back onto themselves for a secure, self-gripping hold.

- VPTG** Velcro Plant Ties

SIX PACK

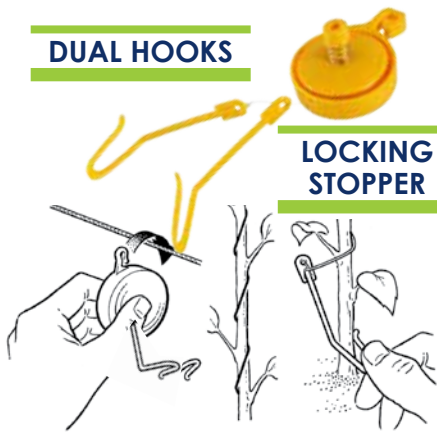

PLANT YO-YOS

Support your plants with our plant Yo-Yo. Just hang it above the plant to support the stem. As your plant grows, retract the yo-yo. This is gentle on plants and the yo-yo string is 60" in length. Comes with spring-loaded locking stopper to secure the string at the desired length.

- HGPLYO** Plant Yo-Yo

DUAL HOOKS

LOCKING STOPPER

HEAVY DUTY PLANT STRAPPER

Increases staking speed and efficiency. Safely secures plants to stakes, lines, and trellises. Works for branches, Vines, and stalks up to 1 1/4" diameter. Includes tape, staples, and replacement blade and spring!

- HGTG** Plant Strapper
- HGPT** Tape Refill for Plant Strapper
- HGTGS** Staples Refill for Plant Strapper

new

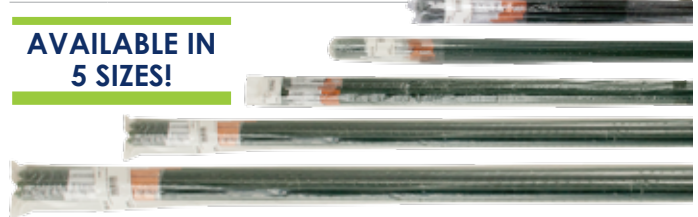

VINYL COATED STURDY STAKES®

Sturdy Stakes are the premier garden stake. With a steel core for strength, they are designed to be durable, strong, and long lasting. Their tough, thick plastic coating renders them weather, chemical, and rust proof. They have a sure-grip surface for ease in handling.

- SS2000** 2' Sturdy Stake (20/pk)
- SS3000** 3' Sturdy Stake (20/pk)
- SS4000** 4' Sturdy Stake (20/pk)

6" WRITABLE PLANT MARKERS

Write on them with a pencil, then erase and reuse. 50 markers per packet.

HGPM50 Writable Plant Markers

thirsty light™

THIRSTY LIGHT™ DIGITAL MOISTURE METERS

The Thirsty Light is a digital plant moisture sensor that blinks an LED to alert the user when it is time to water a potted plant. It is designed to be unobtrusive when left in the soil of a plant, where it continuously monitors conditions, testing the moisture level once per second.

INCLUDES DISPLAY

Blinks when your plant is thirsty!

HGTL	Thirsty Light
HGTLBB	Thirsty Light Bumblebee
HGTLBF	Thirsty Light Butterfly
HGTLB	Thirsty Light Ladybug
HGTLCRV	Thirsty Light Curve

THIRSTY LIGHT BUGS

- Three fun designs—Bumblebee, Butterfly, and Ladybug
- Use indoors or out

NO MORE OVER-OR UNDERWATERING!

THIRSTY LIGHT CURVE

- Angled probe for hanging plants
- Blinks faster as soil dries
- Great for homes, dorms, and offices

ACTIVE AIR™

2-WAY MOISTURE AND pH METER

With the Active Air Moisture Meter, you'll never overwater again! Suitable for soil testing indoors or out, the 2-way meter measures moisture levels on a scale of 1 (dry) to 10 (moist), as well as pH levels between pH 0 (acidic) and pH 10 (basic). Durable and easy-to-read. Requires no batteries.

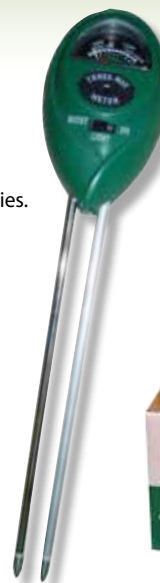

MGMP1 2-Way Moisture and pH Meter

3-WAY MOISTURE, LIGHT, AND pH METER

Conveniently test moisture, light, and pH levels with the handy Active Air 3-Way Meter. Moisture readings register on a scale of 0 (dry) to 10 (moist), light readings range from 0 (low light) to 2000 (very strong light), and pH readings range between pH 0 (acidic) and pH 10 (basic). Durable, easy-to-read tester is suitable for indoors or out and needs no batteries to operate.

MGMLP1 3-Way Moisture, Light and pH Meter

INCLUDES DISPLAY

Easily identify pests, disease, or plant species to target fast solutions!

Active Eye mobile microscopes are compact, lightweight, and portable, with ideal magnification for detecting insects and disease on plants, and bright LEDs that provide perfect light in any conditions.

ACTIVE EYE ILLUMINATED MICROSCOPES

Hydrofarm offers a choice of four Active Eye illuminated microscopes to help the gardener identify pests, disease, and even strains of plants to aid in the growing process.

- Provides targeted, optimal illumination
- Compact, lightweight design
- Super bright LED bulb to illuminate specimens

AEM30	Active Eye Loupe 30x

AVAILABLE

FLC27D

AGROBRITE DESKTOP PLANT LIGHT

Desktop Plant Light offers energy efficient, flicker free performance and versatility for indoor growing! The included 27W daylight balanced fluorescent bulb is one of the wonders of modern technology. This 5400K continuous output light source outputs a constant spectrum of light that closely mimics the visible spectral output of the sun, with very little heat. The lamp has a flexible neck and adjustable height to provide clean and balanced light that works for seed starting, small potted plants, or even as a reading lamp. Planter not included.

- Natural daylight spectrum for healthy plants
- Bright, true colors and high contrast—easy on eyes
- Flexible neck with stable base, designed to hold a potted plant
- Replacement 5400K bulb available (FLC27D)

FLF27D Agrobrite Desktop Plant Light

AGROBRITE STANDING PLANT LAMP

The Agrobrite Standing Plant Light offers exceptional illumination and versatility! With a flexible neck and adjustable height (48" to 61") this lamp provides bright, natural light that will help plants thrive. Flicker-free fluorescent bulbs provide unmatched clarity and color rendering, making them not only ideal for plants but for reading as well. Replacement 5400K bulb available.

FLF27DF Agrobrite Standing Plant Lamp

FLC27D Replacement Lamp (Bulb) for Agrobrite Desktop and Standing Lamps, 27W, 5400K

JUMP START®

Add on as you grow with the Jump Start modular T5 system & parts!

The Jump Start T5 Modular System gives you total control of your lighting needs. The Jump Start T5 is available as a combo kit, a complete 2-foot or 4-foot system, or as separate units so you can buy what you need to begin, and add on as you grow! The high output, energy efficient T5 lamps ensure that your plants get the light they need for robust growth. Whether you want a hanging system, a standalone unit, or a simple strip for a windowsill, the Jump Start T5 is the growers' choice for seed starts, cuttings, herbs, and more!

Spectrum-enhanced lamps for maximized yields

20 YEARS AND COUNTING... Since 1994, Hydrofarm has been the industry's leading provider of spectrally-enhanced HID bulbs with its Agrosun line. That's two decades of well-established quality and performance, with thousands of satisfied customers.

Specially designed to maximize productivity in the flowering/fruiting phase of nearly any crop, Agrosun bulbs represent the best of our research and innovation in the area of spectrum augmentation in halide and HPS lighting.

See pages 46–47

**Fully assembled—
just plug in and grow!**

FLUORESCENT T12 GROW LIGHT FIXTURES

These fixtures are compatible with all Jump Start Systems. They feature light and durable all steel housing, thermal protection, and corrosion resistance, and come complete with an integrated instant-start energy saving ballast, mounting chain and "S" hooks.

FLV22 2' T12 Light Fixture

FLV42 4' T12 Light Fixture

2' T12 LIGHT FIXTURE

FLV22 – Accepts two T12/20 W or T8/34W, 24" bulbs (bulbs sold separately, see below for bulbs).

Easy to hang! Includes "S" hook and mounting chain.

Pull switch is conveniently located on bottom of unit.

4' T12 LIGHT FIXTURE

FLV42 – Accepts two T12/40 W or T8 68 W 48" bulbs.

PREMIUM FLUORESCENTS

AGROSUN® FLUORESCENT TUBES

We recommend AGROSUN full spectrum fluorescents for seedlings, cuttings, and plants like African violets, orchids, flowering bulbs, vegetables, and smaller houseplants. They're great under counters, on shelf gardens, with plant carts or on a bench with our Jump Start® light system.

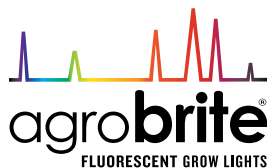

- Brighten any space and help chase away those winter blues; recommended for Seasonal Affective Disorder (S.A.D.)
- Strongest full spectrum fluorescent; up to 20% brighter than other brands
- Tubes fit standard 24" or 48" fixtures
- Rated 24,000 hours of life

BUAG246 24" Agrosun 20 W Fluorescent Tube, 6/pk

**SUN-LIKE LIGHT
AT A VALUE PRICE**

AGROBRITE® FLUORESCENT TUBES

AgroBrite full spectrum fluorescents are a cost conscious alternative for seedlings, cuttings, and plants like African violets, orchids, flowering bulbs, vegetables, and smaller houseplants. They're great under counters, on shelf gardens, with plant carts or on a bench.

Color Temperature: 6400 Kelvin.

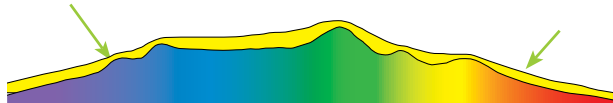

Initial Lumens: 48" = 2200 24" = 875

BUAB24 AgroBrite 24" Tube

BUAB48 AgroBrite 48" Tube

AGROSUN® SPECTRUM IS CLOSER TO NATURAL SUNLIGHT THAN OTHERS

AGROSUN SPECTRUM (CRI=93) SUNLIGHT (CRI=100) CRI = COLOR RENDERING INDEX

Color Temperature 5850° Kelvin

Initial Lumens 48" = 2450 24" = 975

**FULL COLOR
PACKAGING!**

**Ideal for seedlings,
cuttings, flowers,
and house plants**

JUMP START GROW LIGHT® SYSTEM AND EXTENSION KIT

Start with seeds and watch them grow; then, when plants get too tall for your original kit, just snap on the 2 ft extension bars* and continue growing.

- Simple toggle clamp for easy lamp height adjustment
- Quick connectors for super easy assembly—no tools required
- Internal reflective finish directs more light to plants (Grow Light System only)

*Extension kit sold separately

JSV2	2' Jump Start Grow Light System
JSV4	4' Jump Start Grow Light System
JS10065	2' Jump Start Light Stand only
JS10059	4' Jump Start Light Stand only
JSSTEX1	Jump Start Extension Kit - 2'
JST52	2' T5 HO 24 W (fixture/bulb)
JST54	4' T5 HO 54 W (fixture/bulb)

GROW LIGHT SYSTEMS INCLUDE:

- Jump Start light stand
- T5 high output grow light fixture and bulb
- 6' grounded cord with on/off switch

- **GROW SEEDLINGS FASTER** – 15–20% more lumens than shop lights
- **MAXIMIZE PLANT GROWTH** – Simple toggle clamp for easy lamp height adjustment keeps light close to plants
- **SAVE TIME & MONEY** – Highly efficient T5 bulb (with more lumens per watt) and super reflective internal finish mean more light for your plants and less stress on your budget
- **THE ENVIRONMENTAL CHOICE** – Longer life, smaller bulb means less waste and a smaller environmental footprint
- **EASY TO USE** – Assembles in minutes
- **COMPATIBLE** with Hydrofarm's FLT, FLV, and FLP tubes

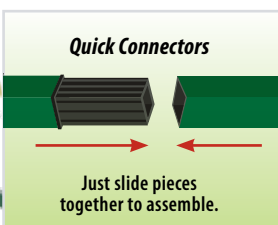

INDIVIDUAL 2' & 4' FIXTURES AVAILABLE TO FIT YOUR JUMP START STAND!

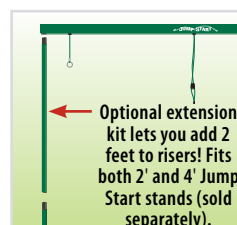

DIMENSIONS – 2' JUMP START	
ASSEMBLED	24½" H x 18¼" W x 26" L
IN THE BOX	7¼" H x 2½" W x 30½" L

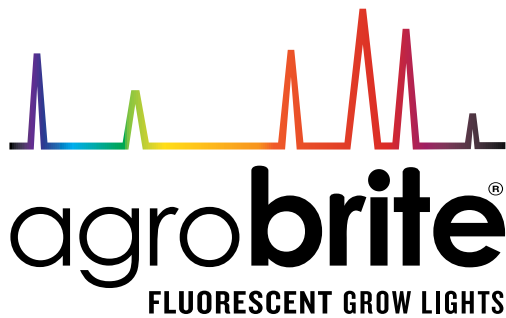

DIMENSIONS – 4' JUMP START	
ASSEMBLED	31¾" H x 18¼" W x 50" L
IN THE BOX	7¼" H x 2½" W x 53¾" L

EASY TO ASSEMBLE— NO TOOLS REQUIRED

EXTENSION KIT SOLD SEPARATELY

T5 Designer Series with daisy-chain feature!

Our T5 Designer System delivers performance, flexibility, and high lumen output for any growing environment! These daisy-chainable systems allow you to choose from dual hanging configurations to meet any garden's design. The multi-faceted specular aluminum, with energy-efficient/high-output T5 bulbs, puts out even more light energy than standard fluorescent systems. The powder-coated finish offers style and durability. Great for seedling starts, cuttings, house plants, flowers, and herbs you want to grow indoors. Ideal for shelves or over bench tops.

**LOW PROFILE
DESIGN**

**HIGH PERFORMANCE
FACETED REFLECTOR!**

**5 Year
Warranty!**

High performance faceted specular aluminum for better light distribution

Dual On/Off switches to control lumens needed (6 & 8 tube only)

Conveniently connect multiple fixtures

Premier hanging system

T5 DESIGNER SERIES

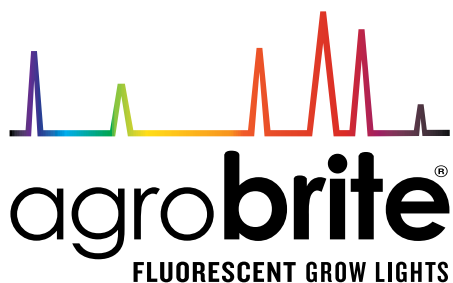

SKU	DESCRIPTION	WATTS	CHAINABLE
FLP22 *	T5 Designer 2'2 tube w/bulbs <i>Rated up to 4,000 lumens – 2.38"H x 7.5"W x 23.25"L</i>	48	12

* Works with Jump Start Stand, see page 34.

INCLUDES TUBES

- Hangs two ways—overhead or vertical (dual hanging not available on FLP22)
- Attractive textured finish
- Low profile, low heat
- High lumen output
- Lightweight
- Available in 2, 4, 6, and 8-tube fixtures
- Fully assembled
- 10' grounded power cord (2' unit has an 8' cord)
- Premier hanging system
- 6400K tubes

**HANGS 3 WAYS –
OVERHEAD, VERTICAL,
OR HORIZONTAL**

Performance, flexibility and high lumen output in any growing environment

Hydrofarm's low-profile T5 Agrobrite systems allow you to choose multiple hanging configurations to meet your garden's design. They combine a specular aluminum interior with energy-efficient/high-output T5 bulbs, and put out double the light energy of normal fluorescent systems.

- Multiple on/off switches on 6, 8, and 12 tube fixtures allow you to control the amount of lumens as needed
- High efficiency specular aluminum and socket for longer life
- Powder coated steel housing
- Hangs 3 ways—overhead, vertical, or horizontal
- 10' grounded power cord (2' unit has an 8' cord)
- Includes fluorescent 6400K tubes

**DAISY-
CHAINABLE**

**MULTIPLE ON/OFF
SWITCHES
ON 6, 8 & 12 TUBE**

**5 Year
Warranty!**

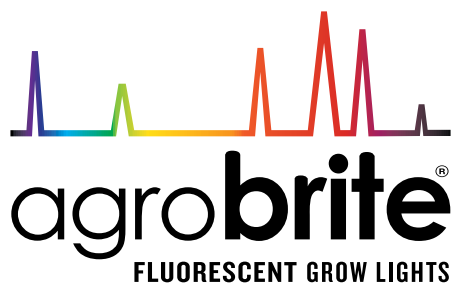

**TUBES
INCLUDED**

How Much Will It Cost To Run Your Lights Indoors?

To calculate the approximate cost to run your lights, simply work through the following formula:

**kWh (rate) x kWh x H x D =
estimated electrical cost per month.**

1. Determine your Kilowatt/Hour rate (kWh) noted on your electric bill.
2. Multiply your kWh charge by your bulb's wattage size expressed in Kilowatt (kW).
(1000 W = 1 Kilowatt, 400 W = 0.4 Kilowatt, and 250 W = 0.25).
3. Multiply the answer from above by the number of hours in use each day (H) and by the number of days in the month (D).

Example:

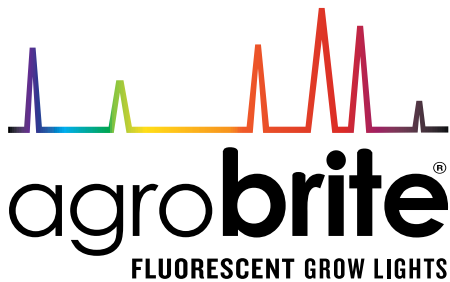

**\$0.12(kWh) x 0.4(kW) x 18(H) x 30(D) =
\$25.92/monthly**

T5 FLUORESCENT FIXTURES COVERAGE SUGGESTIONS

4 Tube	6 Tube	8 Tube
3' x 8'	3.5' x 8'	4' x 8'
2' x 6'	2.5' x 6'	3' x 6'
1' x 4'	1.5' x 4'	2' x 4'

Ideal mounting height: 4" – 6"

FLUOROWING GROW LIGHT

- Full daylight spectrum fluorescent grow lamp
- Lamp can be used in all fixtures
- Includes hanging hardware, junction box, and 8' power cord
- 1-year warranty

mini SUNBURST®

The smallest all-in-one grow light systems on the market

MINI SUNBURST® WITH LAMP

Hydrofarm's mini Sunburst reflector comes with everything you need to get growing at a price that just can't be beat. You'll also enjoy the sheer speed of setting up the Sunburst—it's plug-and-play, giving you more time to tend to your plants. With its highly reflective hammertone specular construction, the Sunburst is sure to shine.

- Magnetic 100W HPS or 150W MH
- Super quiet operation
- Easy to hang
- Lightweight and compact construction
- Includes instructions, hangers, cord, lamp, and lighting recommendations

SBMM100H	Mini Sunburst MH 100W w/Lamp
SBMM150S	Mini Sunburst HPS 150W w/Lamp
BUHL100E26	100W MH Bulb for SBMM100H
BUSD150E26	150W HPS Bulb for SBMM150S

**SUPER

DAYSTAR® SERIES

**Brightest, most uniform
ultra-wide delivery**

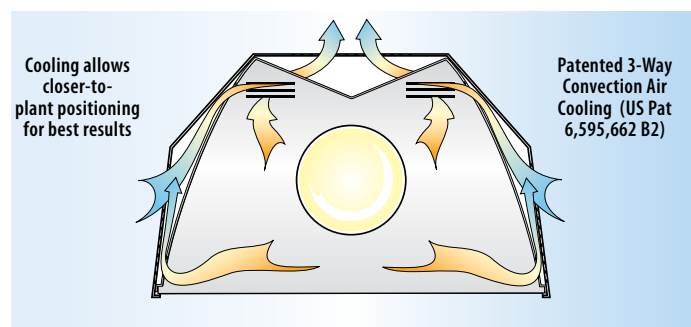

DAYSTAR® REFLECTOR

The Daystar was designed by the finest reflector engineers in the country, utilizing the purest, most efficient European aluminum to create an unsurpassed combination of uniformity and efficiency. Compare the Daystar with other reflectors on the market and find out why our design is the leading choice for 1000W sodiums and halides in both the competitive commercial greenhouse market and in the demanding eyes of your customers.

With the same design and reflective material as our flagship Daystar unit, the "AC" adds built-on 6" flanges for cooling air flow with an optional fan—coupling high performance with maximum air cooling potential. The tunnel-like interior ensures more complete air flow than common air-cooled units. This combination lets you control growing area temperatures, so you can place lights closer to plants for better growth and higher yields.

U.S. Patent # 6,595,662 B2

DA6AC	Daystar AC Reflector – 6" Flanges w/lens
DAUN	Daystar Reflector
RFLNSYS	Daystar Lens System for DAUN
LGCKT2	4" Flange Cooling Kit

AC model includes 15'
pre-wired lamp cord

Built-in socket

DA6AC comes with completely
sealed lens system

**INSTRUCTIONS, HANGERS & LIGHTING
RECOMMENDATIONS INCLUDED**

DA6AC

SIZE: 7.38"H x 12.5"W x 22.5"L

- World's finest European reflective specular aluminum; 99.85% pure with 95% reflectivity
- Designed exclusively for Hydrofarm by America's foremost lighting design engineers
- Super efficiency with both 1000W sodium and halide
- Low profile design for lower clearance areas
- Patented cool running double-wall design
- Compact and lightweight; easy to hang
- Built-in cord set and socket
- Enclosed wire channel protects wiring
- Instructions, hangers, & lighting recommendations included

DAUN

Use DAUN with All System Cord
Set, sold separately (CS53500).

AIR COOL DAUN**

XTRASUN®

Excellent performance
at a cost effective price

XTRASUN 6" AC REFLECTOR

Need efficient air-cooling? Xtrasun series AC reflectors have integrated air-cool fittings for maximum air movement. The interior is made from a highly reflective imported aluminum. The socket assembly and 15' lamp cord are built-in and it comes complete with a hinged frame, tempered glass, and wire hangers.

- Highly reflective hammertone aluminum interior
- Completely sealed, with hinged lens frame
- Efficient integrated flange for 6" or 8" ducting
- Includes tempered glass lens, aerodynamic built-in socket, and 15' lamp cord set

**4-SIDED
SPECULAR**

SIZE: 26" H x 21" W x 10 3/4" L

LU64AC Xtrasun 6" AC Reflector

XTRASUN CONVERTIBLE BALLASTS

Designed in America, employing features and materials normally found on higher priced units, Xtrasun ballasts have become the most popular value-priced units on the market. The Xtrasun's construction features include unique, patented aluminum housing and efficient convection cooling. It also comes with an industry-leading, best-in-class, 5-year warranty. With the Xtrasun Convertible Ballast, you'll have "Xtra" flexibility—use halide for growing and sodium for flowering.

- Just flip the switch to convert from sodium to halide
- Dual voltage
- Works with Hydrofarm reflectors and all common reflectors
- Aluminum fins for more cooling surface
- Versatile—works with most fixtures
- Includes 8 ft 120V power cord

**VERSATILE DUAL
RECEPTACLE**

SG BALLAST™

Get more ballast
for your buck!

SG CONVERTIBLE BALLAST

The SG ballast is light on price but heavy on features. Experience the power of a ballast straight out of Hydrofarm's value line. This ballast is built to last with a patented design that allows electrical contact to happen only when a seal is achieved. The SG ballast offers a compact design, to save space in the grow room, and a water-resistant seal to protect against misting and sprays. All SG ballasts also feature the Lock & Seal plug system, with recessed contacts to ensure safety during plug-in; a unique, circular prong pattern for secure electrical contact; and a collar that protects against accidental electrical contact. Choose an SG ballast for its 120V/240V capability (power cord included) or for peace of mind—the SG has been CSA certified.

- Compact design
- 120/240V dual receptacles
- Low cost
- CSA certified
- Includes 8 ft 120V power cord
- Rubber feet protect surfaces

**2 Year
Warranty!**

PHANTOM CMh

CERAMIC METAL HALIDE REFLECTOR

PHANTOM CMH REFLECTOR, BALLAST AND BULB KIT

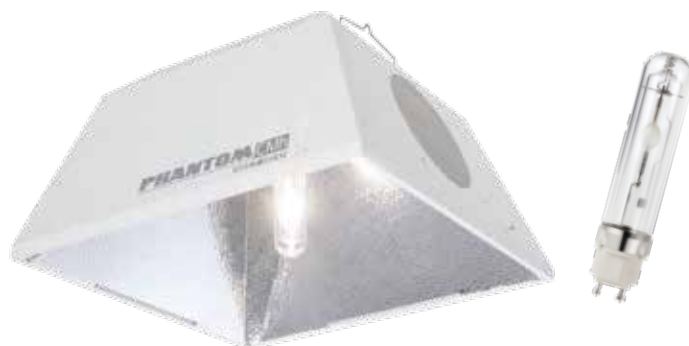

Hydrofarm's new Phantom CMh System combines our Phantom CMh reflector with the multi-voltage Phantom ceramic halide-specific digital ballast and the Philips double-jacketed Mastercolor 315W T12 ceramic metal halide lamp.

Ceramic metal halide technology represents a major advancement in HID evolution. These lamps provide high-quality growth spectrum, amazing PAR per watt performance, and extra energy in the ultraviolet range—which all contribute to increased crop quality. Excellent maintenance of PAR/PPF over long lamp life means great value and far longer re-lamping intervals.

High efficiency along with high intensity and cutting-edge performance make the Phantom CMh System a smart choice.

- Excellent PPF (Photosynthetic Photon Flux)—1.95 $\mu\text{mol/s}$
- Longevity—90% PAR output at 8,000 hours and 20,000-hour average life
- Horticulturally-optimized spectrum and increased UV promote enhanced plant quality
- Double jacketed lamp does not require reflector safety lens
- Digital ballast features low frequency, square wave technology
- Multi-voltage: 120/208/240V
- Ideal for low ceilings/tents/vertical gardens
- 95% reflective European hammertone aluminum specular

Innovative design drives next-generation ceramic metal halide lamp

KIT INCLUDES:

- Phantom CMh Reflector
- Phantom multi-voltage ceramic halide-specific digital ballast
- Philips double-jacketed Mastercolor 315W T12 ceramic metal halide lamp

PHR31504KT	Phantom 315W CMh Reflector, Ballast and Bulb Kit (4200K)
PHR31503KT	Phantom 315W CMh Reflector, Ballast and Bulb Kit (3100K)
PHR3150	Phantom 315W CMh Reflector Only (No ballast or bulb)
PHR3150CKT	Optional Cooling Kit for Phantom 315W CMh Reflector

XTRASUN®

DIMMABLE DIGITAL BALLAST SERIES

State-of-the-art and super-boosted!

XTRASUN DIMMABLE E-BALLASTS

Ideal for commercial or residential growing! Created with state-of-the-art microprocessor technology, this super-boosted ballast's extruded aluminum body, cooling fins, and internal fan mean it will stand up to the toughest conditions. Available in both a 600W and 1000W version, each Xtrasun operates on a 120/240V, 50/60 Hz power supply and supplies four-mode dimming. For efficiency, the Xtrasun line of ballasts includes built-in hot restrike programming to protect your lamp and ballast in the event of a power outage.

- Dual input voltage—120V or 240V
- Four-mode dimming—Super, 100%, 75%, and 60%
- Internal RF shielding
- Extruded aluminum enclosure
- Dissipate heat with fan powered cooling
- Generator ready
- Super reliable

XTE1THD	Xtrasun e-Ballast, 1000W Dimmable 120/240V
XTE600D	Xtrasun e-Ballast, 600W Dimmable 120/240V

Internal thermal overload protection & built-in fan to promote cooling

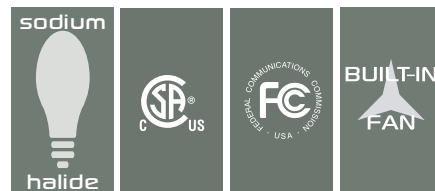

Saves energy with four-mode dimming—set to Super, 100%, 75%, and 60%

LH44 LightHouse 4'x 4'

LH48 LightHouse 4'x 8'

REFLECTIVE METALLIZED FILM

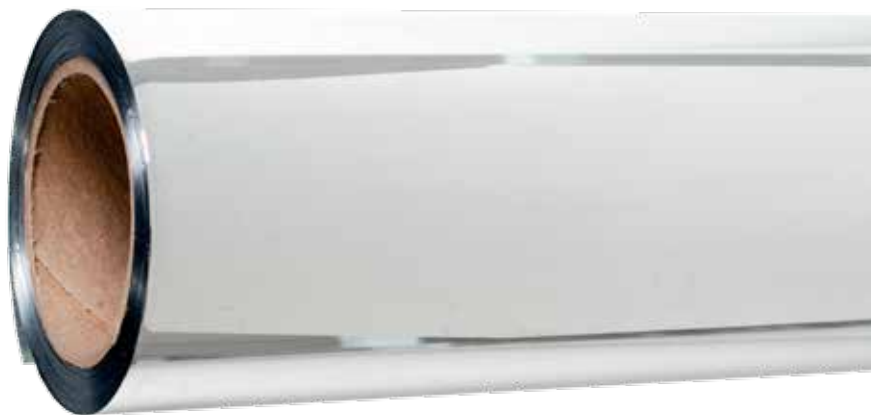

Reflective metallized film is the best reflective material made, with mirror-like efficiency. Rolls are 48" wide and are individually boxed.

MY1M25	Reflective Metallized Film, 1 mil – 25' roll
MY1M50	Reflective Metallized Film, 1 mil – 50' roll
MY1M100	Reflective Metallized Film, 1 mil – 100' roll
MY2M25	Reflective Metallized Film, 2 mil – 25' roll
MY2M50	Reflective Metallized Film, 2 mil – 50' roll
MY2M100	Reflective Metallized Film, 2 mil – 100' roll

Maximize your lighting by reflecting light onto your plants!

**48" WIDE ROLLS—
SUPER VALUE!**

**QUALITY
MATTERS!**

BLACK & WHITE POLY

A waterproof alternative to metallized film for grow areas. The white side is over 90% reflective for use on the walls and floor of your growing area to reflect light back to plants. The black side provides a light-resistant partition. Available in two thicknesses—4 mil and 5.5 mil.

- Heavy-duty plastic is waterproof and tear-resistant
- Easy to handle
- Use as is or cut to size
- Both thicknesses available as a 3' long folded roll—folds out to 10' wide
- 5.5 mil also available as a convenient 10' x 10' sheet (shelf pack)

ABBW4MIL	Black & White Poly, 4 mil – 10' x 100' roll
ABWP1	Black & White Poly, 5.5 mil – 10' x 10' shelf pack
ABWP10	Black & White Poly, 5.5 mil – 10' x 100' roll

HYDROFARM PERMAFLECT

Unlike traditional mylar, Permaflect can be wiped clean for long-lasting reflectivity. Giant size roll is 54" wide, a full 6 inches wider than the rest.

MYPF25	Permaflect – 25' roll
MYPF100	Permaflect – 100' roll

- Highly reflective & reinforced for durability
- 25' and 100' length
- Wall & floor covering or room divider
- Mesh increases diffusion—no hot spots

The “Gold Standard”
in plant growth lighting

AGROSUN GOLD HALIDE LAMPS

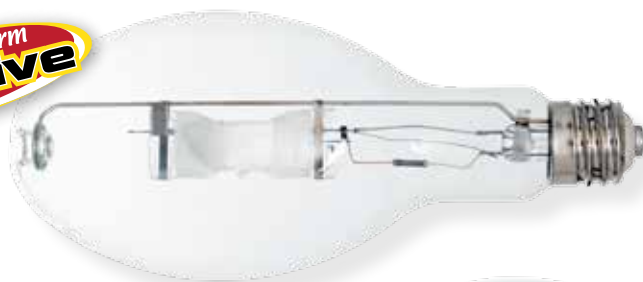

A Hydrofarm exclusive, these spectrally enhanced halides are the best all-purpose growth and fruiting/flowering light you can use. They emit more of the red wavelengths than the common halides.

same high output and efficiency!

AGROSUN RED SODIUM LAMPS

Agrosun Red Sodiums are the best choice for enhanced flowering, increased crop volume and supplemental greenhouse lighting. Not only will they produce more, larger, and better flowers, but they will do it quicker than common sodium bulbs. Red Sodiums are recommended for situations where high output supplemental light is preferred.

POWERPAR® LED BULBS

PARsource's powerPAR™ LED bulbs feature spectrum specific light and a compact design that fits into standard E26 sockets for easy installation. Ideal for germination chambers, indoor growing, photoperiod applications, low hanging applications, and supplementary spectrum enhancement. Available in far red, red, white, and blue providing spectrum enhancement for many growing applications.

PPB1001	powerPAR LED Bulb-Red 15W/E27
PPB1002	powerPAR LED Bulb-Blue 15W/E27
PPB1003	powerPAR LED Bulb-White 15W/E27
PPB1004	powerPAR LED Bulb-Far Red 15W/E27

FEATURES

- Superior thermal design for heat management system lets the bulb run efficiently for long periods
- Coverage area: 2 foot diameter
- Height from plant: 12" to 18"
- Low energy consumption
- 50,000 hour life span
- Low heat generation
- Fits into standard 120V socket
- Arc shaped for wider beam angle
- 130W Incandescent equivalent
- Power supply: 120V AC (Input), 24V DC (Output)
- Power usage: 15W

PPB1004	powerPAR® Far Red LED Bulb	15W	Far Red	Promotes stem elongation and inhibits branching.
PPB1001	powerPAR® Red LED Bulb	15W	Red	Inhibits stem elongation and promotes branching. Used to enhance the flowering stages of growth. Also enhances photoperiod responses.
PPB1002	powerPAR® Blue LED Bulb	15W	Blue	Works with continual light as a booster that will promote stem growth and reduce internodal length.
PPB1003	powerPAR® White LED Bulb	15W	White	General purpose LED grow light carries various plants through the whole growth cycle.

Identify the best light level for healthy plants!

ACTIVE EYE LIGHT METER

Photosynthesis and plant growth depend on the sun or specially-designed lighting systems. But of that light reaching the plant, only specific types of energy (in the lighting spectrum) drive the photosynthesis process. Since light is the most important single factor affecting your plants' life cycles, quality light meters are an essential tool in accurately determining if your crop is receiving the maximum light needed for healthy growth. A light meter allows growers an accurate means of adapting to their plants' needs as the light conditions change during a full growing season.

LG17000 Active Eye Light Meter

- Identify best light level of healthy plants
- Easy to use hand-held design
- Get precise reading with two scales
- Includes instructions and "Consumer's Guide to Light Gardening" brochure
- Lifetime silicon sensor—no batteries required
- Read up to 5000 footcandles of sun, high intensity, or fluorescent light
- Exclusive "Zero" calibration feature—accurate to 2%
- Full 2-year warranty—the longest in the industry

DIGITAL LIGHT METER (FOOTCANDLES)

This product is a precision instrument used to measure luminance (foot-candles). The meter is fully cosine corrected for the angular incidence of light, meaning that if you are not holding the sensor perfectly perpendicular to the light source, the sensor will still read the light correctly. The sensor is stable and made of a long-life silicon photo diode. The digital light meter accurately measures to 40,000 FC. The meter's built-in low battery indicator means you'll never be caught by surprise by a low-power product.

- Measures grow lights or sunlight
- Measures up to 40,000 footcandles
- 3 scales for precise readings
- Convenient hand-held remote sensor
- Lifetime silicon cell (Lithium 3V CR2032)
- Includes informative booklet with lighting recommendations

**CONVENIENT
CLAMSHELL
PACKAGING**

LG17010 Active Eye Digital Light Meter

QUANTUM PAR METER

Fully portable handheld PAR meter features our highly accurate, integrated Quantum Sensor that measures PAR (Photosynthetically Active Radiation) flux in wavelengths ranging from the 400 to 700 nm. It measures up to 10,000 μmol compared with 2,000 μmol for other meters on the market.

LGBQM Quantum PAR Meter

- Data logging capability using standard mini-USB cable and proprietary data logging software available at Hydrofarm.com
- Low power consumption with built-in low battery power indication
- Constant linear response curve (as opposed to other meters' Gaussian response) yields higher accuracy independent of wavelength—perfect for measuring LED light output
- Automatic sun or electric light calibration modes ensure accurate readings no matter the source

ROPE RATCHET

Compact rope ratchets (2 per pack) are perfect for hanging lights, filters, and other equipment. Features metal components and a patented pully system that adjusts easily and locks in place. Includes 4 easy-to-use carabiner clips and 2 ratchets that are pre-strung on 2 six-foot cords. Holds up to 150 lbs. (75 lbs. per ratchet).

CN10005 Rope Ratchet

HEAVY DUTY ROPE RATCHET

A unique, compact system that lets you secure light fixtures quickly and securely. Tighten as needed—no knots to tie, just hook ends and pull tight! 150 lbs of holding power with two 1/4" metal hooks. Holds up to 150 lbs.

CN10010 Heavy Duty Rope Ratchet

HEAVY DUTY!

TIE-BOSS

The patented TIE BOSS® offers a one hand instant lock and release. Durable construction with no moving parts to break, jam, or rust. Stands up to water and humidity, and has a one person operation, allowing anyone to raise and lower loads without a ladder.

TB180212	.125" Tie Boss (10 ft, 75 lb load)
TB140208	.25" Tie Boss (8 ft, 150 lb load)
TB380210	.38" Tie Boss (10 ft, 275 lb load)
TB380PUL	Tie Boss Pulley (275 lb load)

a Hydrofarm exclusive

Add more pulleys to lift heavier loads

TIE BOSS PULLEY
Two pulleys make 150 lbs feel like 50! 275 lbs. max load. 1 per pkg.

SUNRISE REFLECTOR HANGING SYSTEM

Hang reflectors with our easy one flip adjusting light toggle. Adjust hang height of the light with the growth rate of the plant. Makes control simple and efficient so you get better growth. Now comes with strong wire cables and carabiner clips for even more carrying capacity—each hanger can hold up to 13 lbs! Includes two SunRise hangers plus hardware, hanging hooks and instructions.

RFSR SunRise Reflector Hanging System

KILL-A-WATT USAGE MONITOR

- Monitor your electrical usage
- Hanging color display card
- Measure by the day, week, month, or year
- ETL listed, 15 A rating

LGP4400 Kill-A-Watt Usage Monitor

90° TRI-TAP ADAPTER

This heavy duty adapter is the ideal solution for safely creating three additional outlets. You can change any single power outlet or any extension cord into 3 standard U-ground outlets when needed.

CW3WAY Tri-Tap Adapter

ACTIVE AIR™

INDOOR-OUTDOOR THERMOMETER

The display shows current temperature, humidity level, and time of day with an optional alarm clock function. Records high and low points for both temperature and humidity.

HGIOHT Indoor-Outdoor Thermometer

HYGRO-THERMOMETER

This XL screen display shows current relative humidity & temperature levels while simultaneously showing high and low points for both RH and temp.

HGIOHTJ Hygro-Thermometer

HEAVY DUTY 24-HR GROUNDED TIMER

- 15 minute ON/OFF
- Great for lighting, pumps, etc.
- 15 A

TM01015 Heavy Duty 24-Hr Grounded Timer

DUAL OUTLET GROUNDED TIMER

- 15 minute ON/OFF
- 24-hour cycle
- Controls 2 outlets simultaneously

TM01715 7-Day Digital Timer

7-DAY DUAL OUTLET DIGITAL TIMER

- 1 minute ON/OFF
- Up to 8 ON/OFF cycles per day
- Different days and cycles
- Controls 2 outlets simultaneously
- 15 A

GREAT VALUE!

TM01715D 7-Day Dual Outlet Digital Timer

240V HEAVY DUTY TIMER

- 4 timed, 4 constant outlets
- 15 A/2 hp/3600W and accepts the most common 240V cord (NEMA 6-15P)
- 2 ON/OFF cycles per day for 240V lights, fans or other appliances
- Convenient clamshell packaging

TM01240 240V Heavy Duty Timer

TWO-OUTLET INDOOR DIGITAL TIMER

- Variable ON/OFF times up to ± 15 minutes for added security
- Auto adjusts to sunset/sunrise time for dusk/dawn setting
- Automatic Daylight Savings Time option
- For indoor use only

TM01120D Two-Outlet Indoor Digital Timer

TOWER OF POWER

The Tower of Power strip for meters and large plug-ins features space between outlets that allows you to fit timers and more—no wasted outlets. Provides easy accessibility for all your appliances. 6', heavy-duty power cord delivers electricity where it's needed most. Sturdy construction—can be mounted on walls or under furniture. Six 120V outlets total. On/Off switch.

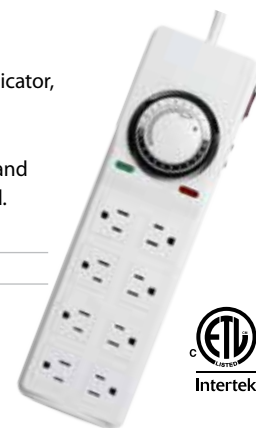

6 OUTLETS!

TMTOP6 Tower of Power

HYDROFARM OUTLET STRIP

Features a lighted On/Off switch, surge indicator, and over-current protection. This 24-hour mechanical timer can be set in 15-minute increments. Has 4 constant power outlets and 4 outlets controlled by timer. 6' power cord. 125 VAC/60 Hz/1875W/15 A.

TMSP8 Hydrofarm Outlet Strip

INCLUDES TIMER & SURGE PROTECTION!

WATER RESISTANT 4-OUTLET POWER STRIP

Patented design and special protective material minimize the flow of electricity when in contact with water. This allows appliances to keep working if the power strip is exposed to moisture, and it also helps to keep you safe. Water resistant, child safe, and surge protected. 14 AWG cord. 15 A.

HGSTRIP Water Resistant 4-Outlet Power Strip

HEAVY DUTY EXTENSION CORDS

Heavy duty molded outlet for longer life with 14 gauge cord with grounded 120/240 V plug for maximum safety. Grounded plug. For indoor use only. UL listed (120V cords only).

JUMP START®

**T5 MODULAR SYSTEM
GROWS AS YOUR NEEDS GROW!**

See page 30

Want to grow? Better fill it with

GROW!T®

Hydrofarm offers a variety of growing media for a wide range of needs. In addition to supporting the plants structurally, the right growing medium is pH neutral, retains moisture and nutrients, aerates properly, and integrates seamlessly with the type of hydroponic system being used.

Especially for hydro

LECA (Lightweight Expanded Clay Aggregate)—used in our new **GROW!T Clay Pebbles**—is sterile, lightweight, porous, reusable, and extremely slow to break down. Its wicking capability and rapid draining makes it ideal for recirculating hydroponic systems, or for improving drainage in organic mediums.

PERLITE is a great amendment to any growing medium, including soil or coconut coir. It increases air-to-water ratios, enhancing root growth and performance.

Coco, soil & organics

COCONUT COIR is an organic grow medium for hydroponic cultivation or amendment for organic soil, it has excellent air and moisture retention properties, and harbors beneficial micro-organisms.

ORGANIC SOIL is rich in beneficial microbiology—it contains its own ecosystem within every bag. It's ideal for all stages of plant growth and takes fortification of synthetic and organic nutrition regimens.

**VISIT US ONLINE
FOR MORE
PRODUCTS & SIZES!**

Bricks, mats, pellets & plugs

COMPRESSED BRICKS provide a compact and efficient means for storage and transport of large volumes of coir. Their shelf life is indefinite when protected from moisture and sterility is ensured.

MATS improve plant stability and root growth in all tray style hydroponic systems. Root growth is not restricted, but improved, as these mats provide protection from algae and light contamination.

PEAT PELLETS, **ORGANIC PLUGS**, and **ROCKWOOL STARTER CUBES** are excellent for propagation of healthy cuttings and seedlings. Root systems become well established, increasing the transplant rates of your favorite crops.

GROW!T®

Amazing aeration and drainage for healthier, happier plants!

GROW!T CLAY PEBBLES

Made from 100% natural clay, GROW!T Clay Pebbles are clean, pH stable, and offer great aeration and drainage. Their unique structure and large surface area offers the ideal environment for beneficial bacterial growth around the root zone, for healthier, happier plants.

AERATION - Ideal to mix into coco coir or soil to aid aeration

DRAINAGE - Holds water as well as offering great aeration properties and free draining

DECORATION - Looks great as a top dressing for pots and also helps to prevent evaporation

GROW!T Clay Pebbles have a non-uniform shape, resulting in an increased surface area that leads to better aeration and water retention. They are the only clay pebbles that offer a tumbled surface, without sharp edges that can cut delicate roots and harm plants – so plants are less vulnerable to pests and diseases.

Ideal for flood and drain, deep water culture, and top drip hydroponics/hydroculture systems. In drip irrigation systems, the pebbles can be mixed with a medium with more capillary action, so that nutrients are dissipated more broadly. Also great for aeration of coco coir or soil.

- Extremely stable in both pH and EC
- Made from 100% natural clay
- Strong structural integrity means that they are less likely to break and compact, which helps to prevent dripper systems from getting blocked
- Pre-washed to aid in stability
- Drain freely and do not hold any excess water, providing good oxygen levels around the root; suitable for flood and drain systems, multi-pot and drip feed systems
- Will not float once fully wet

GMC5L	GROW!T Clay Pebbles, 8 mm–16 mm, 5 L
GMC10L	GROW!T Clay Pebbles, 8 mm–16 mm, 10 L

ORGANIC GROW!T COCO COIR MIX

Use indoors or outdoors as a planting mix to promote root growth for flowers, veggies, herbs, and more. Great indoors for tropicals or outdoors as mulch. Perfect as hydroponic medium or aggregate for soil applications. Each lightweight block equals 2 cu ft of mulch.

JSCCM25 GROW!T Organic Coco Coir Mix Block
JSCPB GROW!T Organic Coco Coir Mix Bricks, set of 3

- Holds water like a sponge
- Excellent drainage
- Reduces need for fertilizer
- Prevents re-potting stress
- Neutral pH and innate buffering capacity
- Resists fungal growth

ORGANIC GROW!T COCO COIR CHIPS

Suitable to add to potting soil, or use in place of bark as both a decorative ground cover or to grow orchids and other tropical flowers. Protects plants all year long. Free from pathogens and seeds. Alternative to peat moss. Optimal air-to-water ratio. Excellent drainage properties.

JSCC2 GROW!T Organic Coco Coir Chips, Block
JSCCB GROW!T Coco Coir Chip Brick, set of 3

GROW!T COCO COIR CROUTONS

Fresh water rinsed croutons with no salt residue. Lightweight organic alternative to clay pellets and rocks. Neutral pH helps guard against mold and fungus. Perfect for orchids. 28 L bag.

AD113000 GROW!T Coco Coir Croutons

GROW!T GRO BAG

Stylish Gro bag works indoors or outdoors—just add water and mix. Perfect for veggies, fruit, or herbs. Expands out to 0.5 cubic feet (final expanded size: 10"H x 10"W x 8"L).

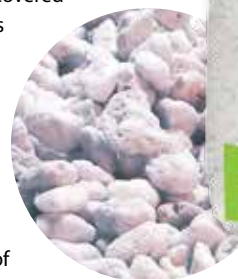

JSBD GROW!T Gro Bag

GROW!T SUPER COARSE PERLITE

When expanded, each granular particle of perlite is sterile with a neutral pH and contains many tiny, closed cells, or bubbles, which provide optimum aeration and drainage. The surface of each particle is covered with tiny cavities providing an extremely large surface area to hold moisture and nutrients. Because perlite is sterile, it is free of disease, seeds, and insects.

GMPE50L GROW!T Super Coarse Perlite 50L/1.76 cu ft
GMPE100L GROW!T Super Coarse Perlite 100L/3.53 cu ft

GEOLITE CLAY PEBBLES

Made from 100% natural clay, Geolite Clay Pebbles are clean, pH stable, and offer great aeration and drainage. Due to their unique structure and large surface area, GEOLITE Clay Pebbles offer the ideal environment to foster beneficial bacterial growth around the root zone. Perfect for hydroponics, hydroculture and aquaponics, or simply for decoration.

GMGC10L Geolite Clay Pebbles, 10 L
GMGC45L Geolite Clay Pebbles, 45 L

Movable, stackable, versatile!

ROLLING RACKS

These rolling racks are sturdy, durable garden shelf units that feature three shelves, mounting holes for fluorescent lighting fixtures (sold separately), casters, and variable shelf positioning. Each shelf can hold 110 lbs. Stack a second unit on top of the first to make an impressive 81-inch tall, 6-shelf propagation tower!

- **Stackable:** Buy one 3-shelf unit or buy two units to stack them to one tall unit
- **Movable:** 4 casters allow the rack to be pulled to any direction smoothly
- **Sturdy:** Heavy duty design supports a total weight up to 330 lbs (including the weight of the rack itself and optional lighting systems)
- **Adjustable:** Multiple mounting holes make it easy to adjust shelf location
- **Versatile:** Slots under each shelf can support hanging Hydrofarm FLP T5 fixture, FLT T5 fixture, JSF T5 strips and other LED bars

COMING SOON! Rolling Rack

Experience maximum cloning performance!

new

OXYCLONE PRO SERIES SYSTEMS

oxyCLONE is a simple, compact, recirculating cloning system. It works with a variety of cuttings, allowing you to have a perpetual garden year-round. Now powered by Active Aqua's premium, BPA-free water and air pumps! The submersible pump delivers constant turbulence to your reservoir while the attached Venturi valve naturally draws in air bubbles. For maximum aeration, the single-outlet Active Aqua air pump provides a constant flow of dissolved oxygen through a circular 4" air diffuser. No other cloner delivers dissolved oxygen like the oxyCLONE!

FEATURES:

- Won't leak or clog
- Maximum oxygenation
- Evaporative cooling means less retained heat
- Powered with Active Aqua premium pumps

WON'T LEAK OR CLOG

oxyCERTS

- non-toxic EVA foam inserts
- fungal resistance
- no-pinch design

Evaporative cooling means less retained heat

Maximum oxygenation for healthy root generation

Fill the Root Spa with your favorite nutrient solution and watch your plants grow!

ROOT SPA COMPLETE DEEP WATER CULTURE SYSTEM

The Root Spa Deep Water Culture System is a fun and simple DIY bucket system that offers an effective method for delivering optimal levels of water, nutrient, and oxygen to your plants. Fill up The Root Spa with your favorite nutrient solution and watch your plants grow! After a very short time, you will realize the advantage of the simplicity of this uniquely easy-to-use, inexpensive, and forgiving system! Pumping raw air into the nutrient solution, without the need of expensive and often troublesome air stones, is not only cost effective, but your plants will also thrive!

INCLUDES:

- DIY bucket—also available with 4 and 8 buckets
- 10" bucket basket to hold your choice of growing medium
- Multipurpose air hose to deliver air from the pump to the bottom of the bucket
- External air pump to oxygenate your water to encourage root growth
- .5" grommet fitting
- .5" elbow fitting
- .25" black tubing
- Air hose retainer
- Instruction manual

Clay pebble media sold separately.

RS5GALSYS	Root Spa DIY Bucket System
RS5GAL4SYS	Root Spa DIY 4 Bucket System
RS5GAL8SYS	Root Spa DIY 8 Bucket System
HG5DIYB	Replacement DIY Bucket, 5 gal
HG5DIYL	DIY Bucket Lid

IDEAL FOR USE WITH CLAY PEBBLES

See page 54

RS5GALSYS includes EMPUMP air pump with 1 outlet

RS5GAL4SYS includes AAPA15L air pump with 4 outlets

See the 8 Bucket System (RS5GAL8SYS) online at Hydrofarm.com

1. Attach tubing to air pump.

2. Insert other end of tubing into the multipurpose air hose.

3. Turn on the pump to deliver air to the bottom of the bucket

EASY TO ASSEMBLE & USE—NO TOOLS REQUIRED!

See video of the Root Spa in action!

Submersible pumps designed specifically for hydroponic systems

ACTIVE AQUA SUBMERSIBLE PUMPS

Active Aqua submersible pumps feature powerful magnetic drive construction, removable foam filters, and include impellers and a 6-foot heavy duty power cord. 1-year warranty. Filters and impellers are available at Hydrofarm.com.

- Ideal for use indoors or out
- Oil free / safe for fresh water aquariums
- Ceramic shaft for saltwater operation

ACTIVE AQUA COMMERCIAL AIR PUMPS

Perfect to run several WaterFarms or multiple air stones at once. Electrical magnetic air compressor is in a high quality aluminum alloy case, with wear and tear resistant material for cylinder and piston. Comes with multi-outlet divider (6, 8, and 12) that can be individually opened or shut.

AAPA45L	Active Aqua Com. 20W Air Pump, 6 outlets – 45 L/min
AAPA70L	Active Aqua Com. 60W Air Pump, 8 outlets – 70 L/min
AAPA110L	Active Aqua Com. 112W Air Pump, 12 outlets – 110 L/min
AAPADIV6	Air Divider 6 Outlets
AAPADIV8	Air Divider 8 Outlets
AAPADIV12	Air Divider 12 Outlets

HIGH PRESSURE AND HIGH OUTPUT

Recommended tubing sizes (ID = Internal diameter):

AAPADIV6 – 1/4" ID input, .17" ID output

AAPADIV8 – 5/16" ID input, .17" ID output

AAPADIV12 – 3/8" ID input, .17" ID output

ACTIVE AQUA AIR STONES

These stones are an ideal way to add oxygen to your hydroponic growing system. The micropore design energizes the growing solution as it aerates and circulates nutrients. Air stones will extend the life of your nutrient solution, help keep roots healthy, and promote exceptional growth.

AS4	Air Stone, 4" (10 cm)
AS6	Air Stone, 6" (15 cm)
AS12	Air Stone, 12" (30 cm)
AS2FLEX	Flexible Air Stone, 2 ft
AS3FLEX	Flexible Air Stone, 3 ft
AS4FLEX	Flexible Air Stone, 4 ft
ASCS	Cylinder Air Stone, 1.7"
ASCM	Cylinder Air Stone, 2"
ASCL	Cylinder Air Stone, 4"
AS4RD	Round Air Stone, 4"
AS8RD	Round Air Stone, 8"

Cylinder Air Stones

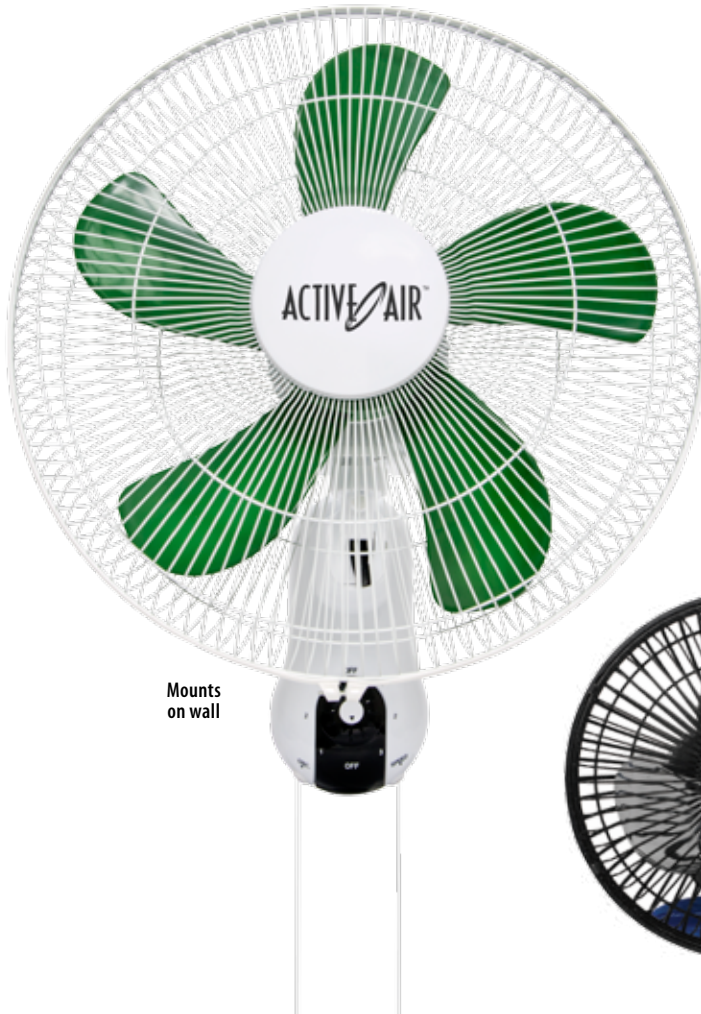

Round Air Stones

means happier plants!

Mounts
on wall

ACTIVE AIR 16" WALL MOUNT FAN

Helps grow healthy plants. Keeps room and leaf temps down. Smooth and quiet operation with 90° oscillating action. Features pull-chain convenience, three speed settings, and an easy wall mount. Smooth and quiet operation. 5' cord.

ACF16 Active Air 16" Wall Mount Fan

**GREAT
VALUE!**

TWO SIZES!

BRUSHLESS CLIP FAN

This energy efficient, low voltage DC fan features ultra quiet operation and a brushless motor for longer life. Clips to flood tables for air flow under foliage. Available in two sizes

HORF6 Brushless 6" Clip Fan, 5W

HORF8 Brushless 8" Clip Fan, 7.5W

**GREAT FOR SMALL
GARDEN AREAS**

ACTIVE AIR 6" CLIP-ON FAN

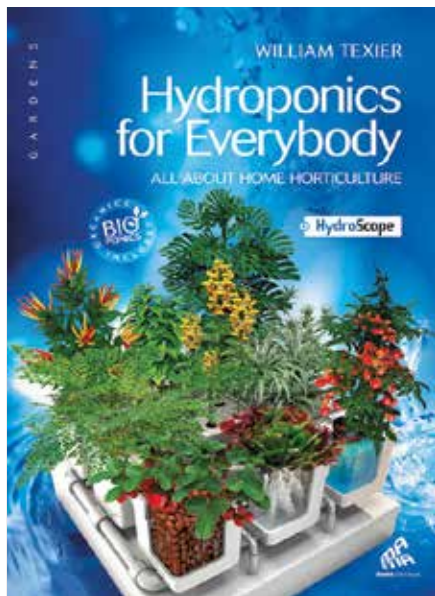

Convenient, versatile, and easy to use, with a spring loaded clip that clamps on desk, shelf, table, and more.

ACFC6 Active Air 6" Clip-On Fan

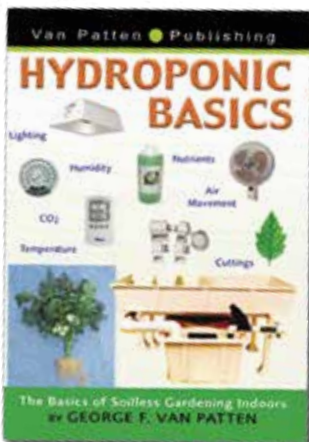

BOOKS

Grow your knowledge!

**HYDROPONICS FOR EVERYBODY:**
ALL ABOUT HOME HORTICULTURE

by William Texier, 264 pages

GH42500 – This richly illustrated bible of hydroponic gardening will increase your indoor harvests to levels you never thought possible. From basic gardening to high-tech installations, tips for the beginner and know-how for the seasoned professional, this book has everything you ever wanted to know about the art of hydroponics.

**HYDROPONIC BASICS**

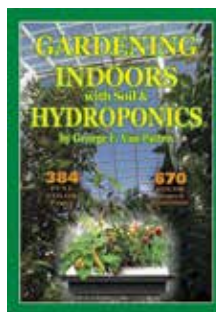

by George Van Patten, 80 pages

BKHB – The basics of soilless gardening indoors.

GARDENING INDOORS WITH SOIL & HYDROPONICS

by George Van Patten, 200 pages

BKIND – The updated version of an indoor gardening staple. Full of advice, directions, and tips for the best indoor gardening results. Features chapters on garden rooms, lighting, systems, air quality, and much, much more.

**GARDENING INDOORS WITH CO2**

by George Van Patten, 96 pages

BKCO2 – Complete information on CO₂, its application and how to best utilize it in any indoor garden.

**GARDENING INDOORS WITH CUTTINGS**

by George Van Patten, 96 pages

BKC – This book helps customers garden indoors with cuttings. An interesting read.

**GARDENING INDOORS WITH HID LIGHTS**

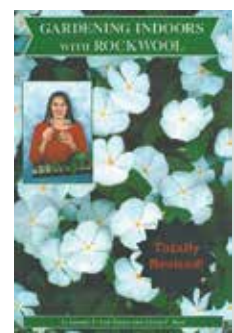

by George Van Patten, 200 pages

BKHID – This "how-to" book unlocks the door to the world of gardening indoors under fluorescent and high intensity discharge (HID) lamps.

**GARDENING INDOORS WITH ROCKWOOL**

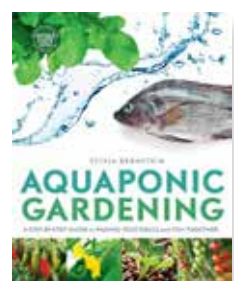

by George Van Patten, 128 pages

BKIRW – Provides instructions on how to garden with rockwool indoors, as well as background information on the growth medium. Simple, easy-to-follow steps and illustrations.

**AQUAPONIC GARDENING: A STEP BY STEP GUIDE**

by Sylvia Bernstein, 288 pages

BKAG – Sylvia Bernstein gives you all the tools you need to create your own home aquaponic system for healthy, safe, fresh and delicious food all year round.

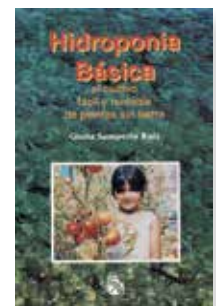

En Español

HIDROPONIA BÁSICA

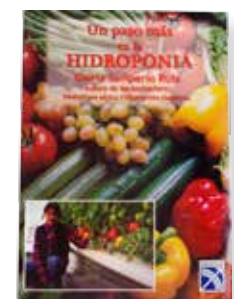

by Gloria Samperio Ruiz, 153 pages

BKHBSP – Hidroponia Básica: Gloria Samperio Ruiz's first book describing the basics involved in hydroponic plant production. Mrs. Samperio-Ruiz uses laymen's terms and many illustrations to share the fascinating hobby of hydroponics.

**UN PASO MÁS EN LA HIDROPONIA**

by Gloria Samperio Ruiz, 327 pages

BKPMH – Un Paso Más covers indoor hydroponic production, more systems and overall in-depth information. The book is written in easy-to-understand Spanish with limited use of confusing technical terminology.

Oxygen

the **heart** of the **oxyCLONE** system

oxyCERTS, non-toxic
EVA foam inserts with no-pinch
design and fungal
and bacterial resistance

Evaporative cooling
means less retained heat

BPA-free plastic
reservoir and lid

Maximum oxygenation for
healthy root generation

Won't leak or clog

Hydrofarm brings you **oxyCLONE**—powered with **Active Aqua's** premium pumps to deliver consistent dissolved oxygen, and priced for value.

Oxygen is the heart of this system.
