

Product Information ****NEW**** 1.0 GL AND 2.5 GL sizes

PRODUCT OVERVIEW

Just add water! The **best** commercial plant nutrient is now available for smaller-scale growers in an easy-to-use format.

Same as the 25 lb. bags, buyers of the 1.0 GL and 2.5 GL jugs can expect:

- The same **simplicity**; Base is used with either Growth or Flowering Formula to create a complete nutrient solution for all growth stages – no additives needed
- The same **high quality raw inputs**
- The same **focus on consistency and quality control**; every jug is produced using proprietary equipment designed and custom built for HGVS

= the same superior growing results

Storage guidelines:

- **No special storage requirements.** HGVS jugs can be stored wherever and however it is convenient

FEED CAPACITY 1.0 GL

Product	Size	Dilution Rate	ML/Unit	Capacity (Gallons)
HGVS Flowering	1.0 gl	30 ml/gl	3,785	126
HGVS Growth	1.0 gl	30 ml/gl	3,785	126
HGVS Base	1.0 gl	15 ml/gl	3,785	252

FEED CAPACITY 2.5 GL

Product	Size	Dilution Rate	ML/Unit	Capacity (Gallons)
HGVS Flowering	2.5 gl	30 ml/gl	9,462	315
HGVS Growth	2.5 gl	30 ml/gl	9,462	315
HGVS Base	2.5 gl	15 ml/gl	9,462	630

At either size, one jug of Base Formula pairs perfectly with two jugs of Flowering and/or Growth
