

LOTUS<sup>®</sup>  
PREMIUM PLANT NUTRIENTS

FORMULATED BY MEDICAL GROWERS - DESIGNED FOR MEDICINAL PLANTS

# PURIFIED. SIMPLIFIED. PERFECTED.

Lotus Nutrients were scientifically developed by Northern California growers with decades of medicinal plant cultivation experience.

Our Team is comprised of growers, scientists and horticulturists whose growing styles and preferences run the gamut. Unable to agree on any current line of hydroponic nutrients, and frustrated with the required multiple-step mixing process, they united with one, unique vision to create the benchmark for pure medicinal grade plant nutrients.

After many years of research, testing and development our team proudly gives you the cutting edge of Pure Premium Hydroponic Plant Nutrients. LOTUS.

# THE LOTUS ADVANTAGE

- 🌸 In an industry where growers are faced with hundreds of nutrients options, Lotus set out to make a simpler, more complete, 3-part nutrient line that replaces the need for complex 8-10 part recipes.
- 🌸 Our pure, 3-part system gives your plants everything they need for development from seed to harvest, giving you unmatched results in flowering and fruiting plants.
- 🌸 Specifically formulated for medicinal plants and comprised of 15 unique raw, natural ingredients including 13 essential macro and micro elements as well as raw materials including seaweed plant extract, humalite, and plant protein hydrolysate.
- 🌸 Lotus Nutrients are 100% water soluble formulas, milled and blended to provide perfect consistency and contain no binders, fillers, or dyes.
  - Dust Free Formulas.
  - Naturally formulated with “anti-caking” ingredients to prevent clumping and aggregation.
  - Best Quality of raw materials on the market, sediment free.
  - 100% soluble formulas, containing no binders, fillers, or desiccants.
  - Milled and blended to provide uniform consistency.
  - Dye free formulas. Contains no synthetic ingredients.

# GROW PRO SERIES |

Lotus Pro Series Grow is specially formulated to give your plants exactly what they need to produce lush, rapid vegetative growth. Pro Series Grow will aid in producing thick stems, tight inter-nodal spacing, dense canopy development and massive root systems, all of which are the building blocks for successful harvests.

## SPECIAL FEATURES

-  Contain over 15 separate ingredients uniformly distributed through the powder.
-  Full spectrum of Macro and Micro elements designed for a complete all-in-one product.
-  All micro nutrients are 100% chelated for full solubility and immediate availability to your plants.
-  Fully soluble, low sodium, seaweed extract component provides naturally occurring growth promoting factors.
-  Specially selected fulvic acid is integrated into the blend to provide for better nutrient chelation and uptake.
-  Naturally formulated powders designed to bring the pH of your water to a comfortable 6.0. Non-acid forming, will not require a significant amount of pH UP/DOWN to bring to the correct range.

# BLOOM PRO SERIES |

Lotus Pro Series Bloom is specifically designed to trigger the rapid onset of flowering, by providing your plants with all the necessary components needed for strong development, producing dense, massive yields spanning all flowering sites.

## SPECIAL FEATURES

-  Contain over 15 separate ingredients uniformly distributed throughout the powder.
-  Full spectrum of Macro and Micro elements designed for a complete all-in-one product.
-  All micro nutrients are 100% chelated for full solubility and immediate availability to your plants.
-  Fully soluble, low-sodium, seaweed extract component provides naturally occurring, growth-promoting factors.
-  Specially selected fulvic acid is integrated into the blend to provide for better nutrient chelation and uptake.
-  Naturally formulated powders designed to bring the pH of your water to a comfortable 6.0. Non-acid forming, will not require a significant amount of pH UP/DOWN to bring to the correct range.

# BOOST PRO SERIES |

Lotus Pro Series Boost is the turbo-charged secret weapon that leads to an unsurpassed size and density of flowers, while maximizing oil production for increased potency and taste.

## SPECIAL FEATURES

-  The only bloom booster on the market to contain a water soluble amino acid portion of nitrogen (1%).
-  Full spectrum of amino acids provides fast and vibrant growth during critical stages of flower development.
-  Perfect ratio of Potash to Phosphorus. Ideal for hydroponic, soilless or coco coir mediums.

# CAL/MAG PRO SERIES |

Lotus Pro Series Cal/Mag is a premium source of the two most readily absorbed secondary nutrients, integral for balanced and healthy growth, essential for coco based grows.

## SPECIAL FEATURES

-  Ideal ratio of Calcium to Magnesium (4:1) developed to treat Cal/Mag deficiencies.
-  Perfect product to be used in coco coir to prevent Cal/Mag lock out
-  Can be used to pre-treat coco coir prior to planting, to flush out excess sodium and chloride from the medium.
-  Makes for a great foliar spray or root zone application.

# CARBOFLUSH PRO SERIES |

Lotus Pro Series Carboflush is designed to remove excess nutrient build-up stored within plants and medium, and acts as a catalyst for flushing your plants in their final stage of growth, while still providing the necessary components for microbial activity. Essential in producing the purest and healthiest harvests imaginable.

# COMMERCIAL APPLICATIONS

Commercial growing demands large quantities of nutrients. Traditionally, this means enormous containers of liquid that are very difficult to move and store. With a premium powder blend, growers on a large scale can easily store and use large quantities with ease.

## Any Grow - Any Size - Every Skill Level

Growers of all skill levels and grows of varying sizes and plant varieties will benefit from the pure simplicity of LOTUS Nutrients. The LOTUS product line suits all techniques and grow methods from basic soil, to complicated hydroponic systems.
