ABOUT NATURE'S BRIX

GUARANTEED ANALYSIS

Soluble Potash (K_2O)	2.0%
Magnesium (Mg)	1%
Iron (Fe)	0.75%

DERIVED FROM:

Magnesium Sulfate, Kelp, Glacial Rock Dust, Molasses, Malt Extract

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

5% Sucrose (Derived from Molasses)
1% Dextrose (Derived from Wood Pulp)

FEATURES AND BENEFITS

- Food grade molasses flour low in impurities and heavy metals
- Highly soluble formula
- Contains simple sugars maltose and dextrose as microbial food sources
- Added magnesium which plants crave during their flowering cycle
- Great for compost teas
- Compatible with any base fertilizer
- Can be used in any type of garden or growing method

Nature's Brix is a premium blend of carbohydrates, simple sugars, rock dust, and other quality ingredients. Nature's Brix can be used as a microbe food in compost tea production. For best results, use throughout the entire flowering cycle up until flush. Use purified water the last 10 days of the flower cycle.

DIRECTIONS

WATER IN

1-2 Tablespoons per 5 gallons of purified water. Small application: 1-2 teaspoons per 1 gallon of purified water.

COMPOST TEA

1 tablespoon per 5 gallons of pre-brewed tea.

FOLIAR

1 tablespoon per gallon of purified water. Apply only after dawn or dusk. Give plants sufficient time to dry before exposing to light.
