

Let's Grow Together

After years of research and development, SoHum Living Soils™ is proud to bring the grow community the potting mix that we have all dreamt about. Our commitment to a hand-crafted, natural, biodiverse potting mix ensures that you maximize your plant's genetic potential while reducing labor, time, and eliminating costly nutrient supplements. Our mix helps your plants flourish through their entire life cycle while providing a full buffet for even the heaviest of feeders.

We cracked the code, taking growing to the next level.

Our hand-crafted & naturally pH-balanced potting mix provides your operation the optimal nutrient delivery system.

JUST ADD WATER

DEVELOPMENT

Welcome to the future of cultivation.
We cracked the code to provide your plants the best, all natural, grow solution available.

Inspired by True Living Organics (TLO), SoHum Living Soils™ (SoHum) will simplify the growing process, maximize yields, and allow for consistent quality in production. SoHum is a bio-dynamic potting mix developed to optimize the plants' genetic potential. In cultivation, the term "bio-dynamic" applies to the understanding that a living soil with beneficial bacteria and fungi directly impacts plant development, emphasizing a natural approach to growing.

This fully amended potting mix contains none of the artificial components found in other soils, and requires none of the chemical additives to spur growth. Enjoy naturally enhanced flavor!

ALL IN THE MIX

Just add water

A true time saver. No need to pH your medium or second guess testing kits.

Living Soil

The optimal balance of micro organisms and beneficial bacteria to help your plants reach their genetic potential.

No Mixing

Let SoHum take the guess work out of providing your plants essential nutrients.

Improved Yields

Consistent yields and premium quality inputs provide the maximum return on investment.

Reduce Costs

SoHum has exactly what plants crave so there is never a need for additional chemicals.

Improve Immunity

Our premium inputs naturally defend against pests while boosting your plants own defenses.

Full Plant Cycle

From seed to harvest, SoHum provides plenty to eat through vegetation or flowering.

Naturally Sourced

Our handcrafted, all-natural, bio-dynamic formula brings out the fullest flavors and finest quality from your crop.

- Full buffet of macro and micro nutrients pre-amended into the potting mix for maximum nutrient uptake.
- Hand-crafted small batch mixing ensures blend accuracy and maximum potency in every bag.
- Reduced costs versus comparable nutrient programs.

FAQ's

Through our many years of helping curious growers, we have naturally encountered a few common questions we would like to share:

Q Seriously, all I need to do is add water?

We know this seems impossible, but yes, just add water. Our mix is jam packed with everything your plant needs to reach its full potential.

Q Can I sprout seeds or place clones in SoHum?

Yes, SoHum was crafted for the complete lifecycle of your plant without burning your starters.

Q Will this work for various kinds of crops?

Yes, our diverse ingredients provide for a full spectrum of fruiting plants.

Q Do I need to flush the plant?

No, SoHum is designed to provide your plants essential nutrients through their entire life cycle. Simply place trays under your pots to keep the ecosystem alive.

Q I am not an experienced grower, do I need anything else to make this work?

We have taken all the work out of growing plants by pre-amending SoHum with all the macro and micro nutrients your plants need. Seriously, just add water.
