

DE600-HPS

- 600W HPS bulb compatible with electronic and magnetic ballasts, 90000 Lumens, E39 Base
- Optimized blue & violet spectrum and high PAR (Photosynthetic Active Radiation) to stimulate flower growth and enhance fruiting
- Extra-low lumen depreciation: maintaining over 90% of initial lumen output after running for 5,000 hours
- Startup Time: allow 2-3 mins for full bright. After power off, do please wait at least 5 mins before striking again
