PRE-WIRED ON-BOARD DRIVERS

LED GROW SYSTEMS
The Ultimate in Versatile Scalability

The **VARIUS LED GROW LIGHTING SYSTEM** is comprised of a series of single LED bars, each utilizing their own unique spectral distribution. VARIUS LED features solutions for standard or pallet rack growing, offering the light quality and performance for any mounting application.

3 SPECTRUMS: Full, red and blue-focused spectrums offer growers a powerful light for any stage of plant growth. Combining two or more spectrums increases intensity and spectral quality beyond the capability of standard fixed-spectrum fixtures.

VERSATILITY: Unlike standard bar systems, the VARIUS LED's magnet mounts allow growers to customize light coverage and intensity based on their plant's needs by easily adjusting distances between fixtures.

EASY INSTALLATION: Each Varius LED bar is supplied with a pre-wired, on-board driver and quick-connect cable system. Powerful magnets allow the VARIUS LED to attach directly to pallet rack frames for easy adjustment of bar spacing to customize light intensity and uniformity.

Optional mounting frame (AG-FRAME) and AC supply harness (AG-8-H) allows adjustability for any mounting application.

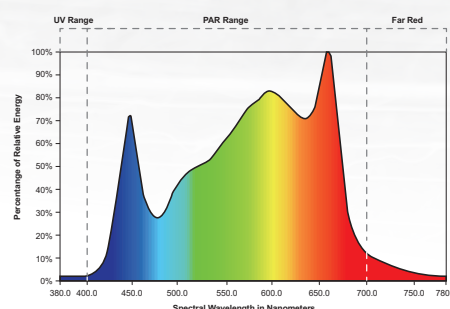

FULL-SPECTRUM

The VARIUS WHITE emits an intense full spectrum that can be used to boost PPF outputs.

ORDERING INFORMATION

SKU	Description
AG90-W-001	LED Light Bar, White Full Spectrum, 90W, 120-277VAC Input, 1-10V Dimming, Black Extrusion w/White End Caps and Driver Connectors, 120VAC Straight Blade Line Cord

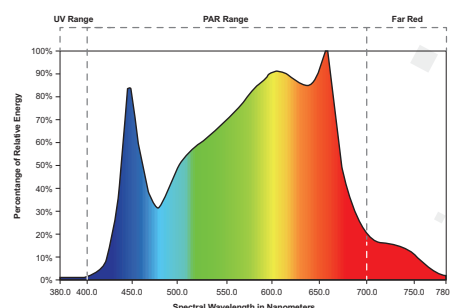

RED SPECTRUM

The VARIUS RED emits a strong red spectrum with enhanced red and far red energy. The red to far red ratio combined with the proper blue to far red ratio emits a spectrum that greatly enhances flowering growth.

ORDERING INFORMATION

SKU	Description
AG90-R-001	LED Light Bar, Red Flower Spectrum, 90W, 120-277VAC Input, 1-10V Dimming, Black Extrusion w/Red End Caps and Driver Connectors, 120VAC Straight Blade Line Cord

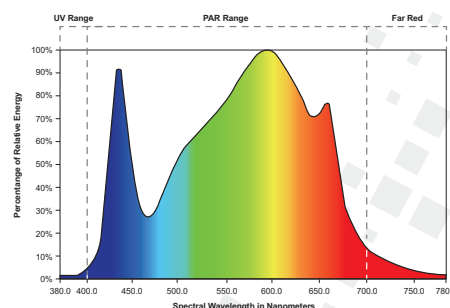

BLUE SPECTRUM

The VARIUS BLUE is a veg spectrum with added red energy ideal for overall plant health and light balance.

ORDERING INFORMATION

SKU	Description
AG90-B-001	LED Light Bar, Blue Veg Spectrum, 90W, 120-277VAC Input, 1-10V Dimming, Black Extrusion w/Blue End Caps and Driver Connectors, 120VAC Straight Blade Line Cord

Specifications are subject to change without notice. Installation must be performed in accordance with Barron Lighting Group installation instructions.
