

TipTopBioTM Control

HOW IT WORKS

CERTAIN INSECTS ARE PERISHABLE AND TIME SENSITIVE AND ARE BEST IF MAILED DIRECTLY TO THE CUSTOMER. THIS PACKAGE CONTAINS ONE PRE-PRINTED POST CARD. PAY AT THE REGISTER, MAIL IN THE POST CARD, INSECTS WILL THEN BE SHIPPED DIRECTLY TO YOU FROM THE FARM.

RELEASE INSTRUCTIONS

1. Predators are highly perishable!
2. Release them the same day as received. Early morning, late afternoon, or when temperatures are not extremely hot. Cloudy days are perfect.
3. Allow predators to warm up to room temperature and release immediately.
4. Mites are fragile – do not shake. Apply by sprinkling onto dry foliage.
5. Begin releases at first sign of Spider Mites. Intensive monitoring should detect only occasional colonies.
6. Do not release immediately before or after pesticide applications.

Storage: Keep the package or vial in a cool location until you can release the predators. Ideal storage temperature is 50°F.
